# How do we maintain our "High Quality"...

We maintain a good quality of raw material after going through these four checks to maintain a smooth business with our clients.

01

## Check 1

We procure our chemicals & solvents from renowned suppliers only in terms of their quality & material availability.

02

## Check 2

We are equipped with multiple viscosity range Hydrometers & refractometer to check the proper density of material & Moisture.

03

## Check 3

Our chemists at godown confirms that the material has:-

1. No other smell issue.
2. No Color tinch Issues.

04

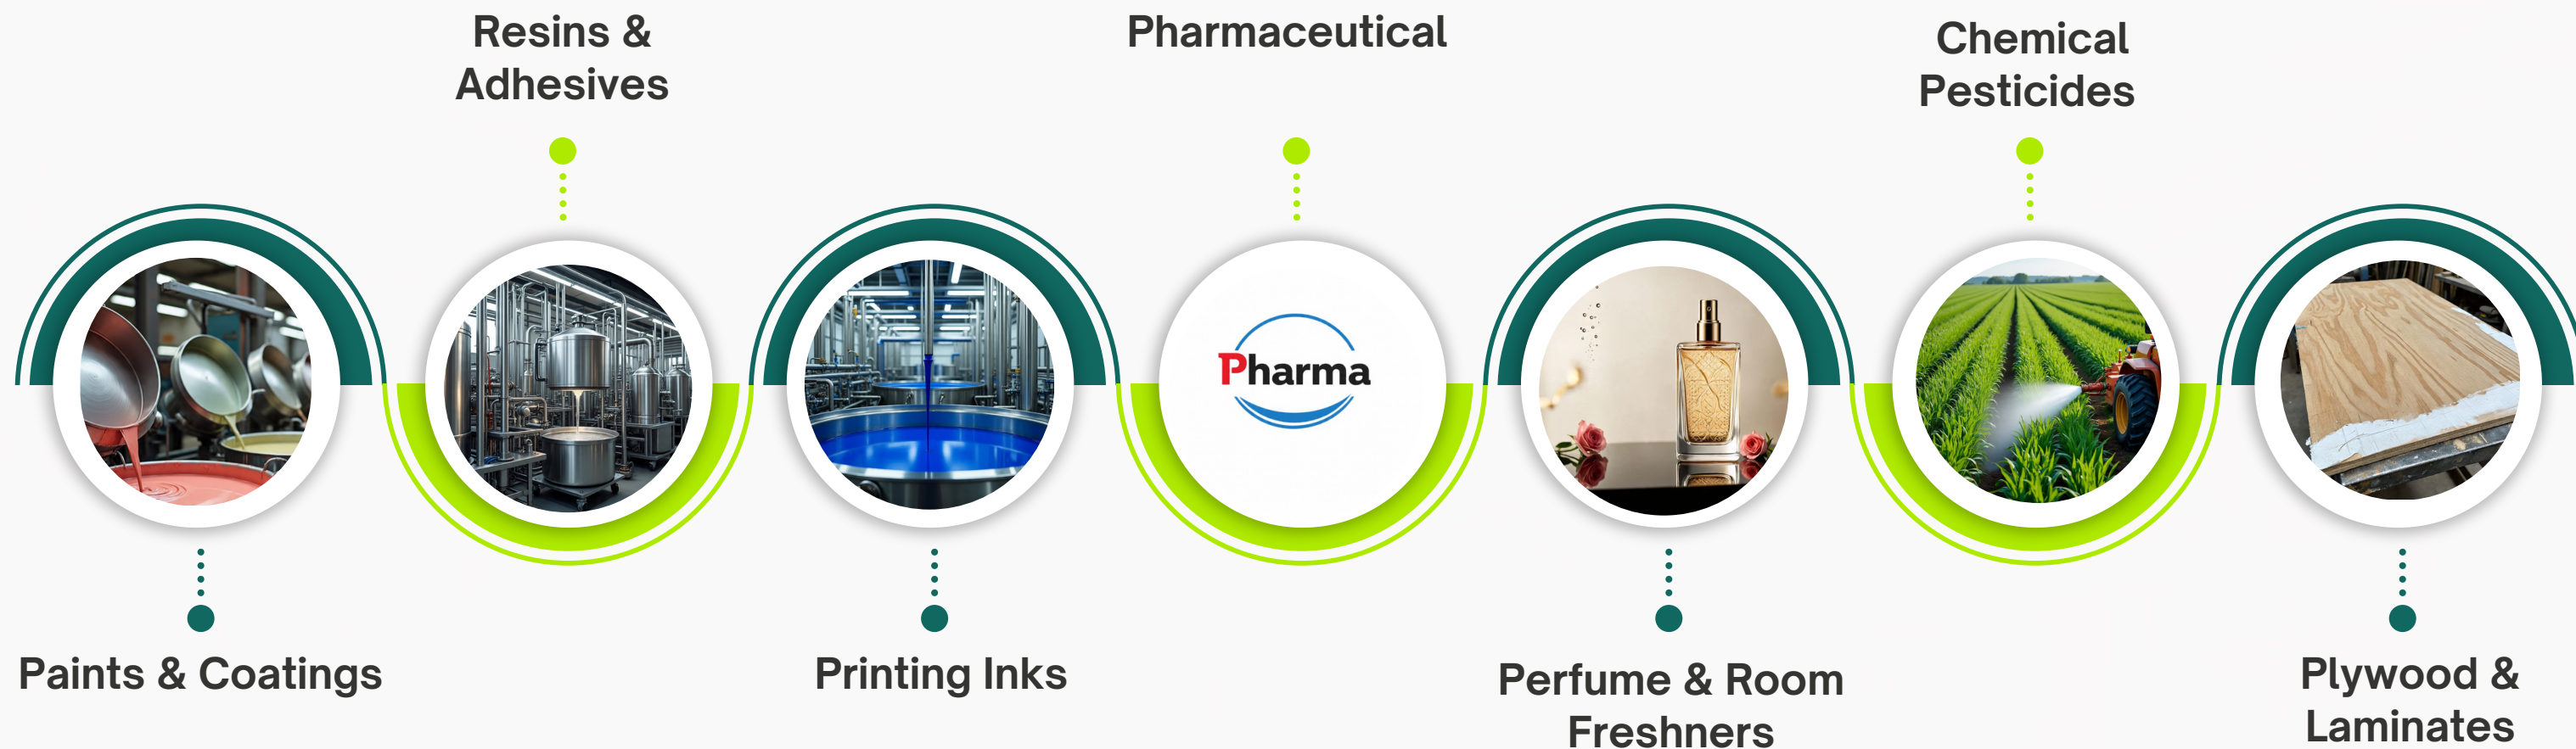

## Check 4

After check ( 1, 2, & 3), we ensure a final check of material just before delivery to fill the gap of 0.1% of surity after getting the 99.9% before.

# Industries we specialize in..
