About Us

P D Industries is a major manufacturer and supplier of premium seating solutions and protective foam packaging products. Over the past few years, we have built a strong reputation for quality, innovation, and customer satisfaction, catering to clients across diverse sectors including automotive, furniture, electronics, and industrial packaging. At P D Industries, our core focus is on designing and delivering products that combine durability, comfort, and performance. Our extensive product range includes Acoustic Panel Foam Packaging, Anti-Static Foam Packaging, Bike Seats, Car Seats, and Chair Seats. Each product is meticulously crafted to meet stringent quality standards, ensuring superior functionality and long-lasting use.

P D Industries is a leading manufacturer and supplier of premium EVA and LDPE sheets, foam products, and polymer matting solutions. With years of industry experience, we have built a strong reputation for delivering durable, innovative, and reliable products that serve a wide range of sectors, including automotive, sports, furniture, packaging, agriculture, and industrial applications. Our modern manufacturing facility in Pune, Maharashtra, is equipped with advanced machinery and dedicated sections for foam processing, sheet extrusion, cutting, finishing, and packaging, ensuring high precision, operational efficiency, and consistent quality. Supporting our infrastructure is a highly skilled team of engineers, technicians, and quality controllers who collaborate to innovate, optimize processes, and maintain strict quality standards.
