About Us

Invictosonics Engineering LLP is a young and dynamic team with fearless work approaches and high goals. We perform our operations with a deep passion for technical aspects of plastic joining and material handling systems. At our company, we believe that every project is important and must be done using the best facilities. To help companies in this, we bring out highly effective solutions that further give customers a user-friendly experience.

We are experts at manufacturing Tapping Machine, Testing Workbench, Heat Insertion Machine, Special Purpose Welding Machine, and many other products. With our creations, we provide excellent work setups to companies that benefit them by enhancing their overall efficiency and productivity. Due to the robustness, fluent performance, and reliability features of our products, we stand among the top manufacturers of them in the competitive market.

**Key Facts**

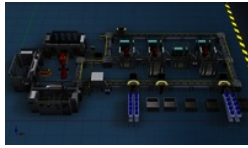

Nature of Business	Manufacturer
Primary Competitive Advantages	automated material handling system,robotic pick and place system,geocell machine ,vibration fixtures,robotics welding machines,inspection robot,robotic systems,cartesian robot,process automation solutions,automatic punching machine
No of Staff	35
Year of Establishment	2022
No of Production Lines	1
OEM Service Provided	Yes
Monthly Production Capacity	2
ProductRange	automated material handling system,robotic pick and place system,geocell machine ,vibration fixtures,robotics welding machines,inspection robot,robotic systems,cartesian robot,process automation solutions,automatic punching machine

Our Products

ROBOTIC PICK AND PLACE

Powertrain Assembly Automation

Assembly Automation

Industrial Heat Insertion Machine

ADDRESS

**Plot no. a PAP G34, Chakan Indl.
Area, Phase II, Savardari, Tal-
Khed, Pune a 410501 Pune,
Maharashtra, India (410501).**
