

## ENGRAVING PRODUCT CHEMICALS

PRODUCTS	END APPLICATION	PRICE (pkg)	PACKAGING
<b>Fast Coat 585 (flatbed photo emulsion)</b>	Core Binding emulsion for engraving textile printing screen		50 kg
<b>Rotary photo Emulsion 954</b>	Core binding emulsion for coating Rotary Screens		50kg / 10kg
<b>Red Coat 555</b>	High Resistance Bonding Adhesive to strengthen bolting with frame		50 kg
<b>Black Coat 555</b>	High Resistance Bonding Adhesive to strengthen bolting with frame		50kg
<b>Bolting Adhesive 777</b>	Quick Drying strong gripping adhesive for metal surface		25kg
<b>Polyester Hardener (Brasso)</b>	Strengthening of engraved portion for a damage free printing		10kg
<b>Endring Remover</b>	Removing Endrings from rotary screens		40 kg
<b>Stripper 555</b>	Removes engraved emulsion & Re-use of nickel screen		35 kg
<b>Flu-fexx</b>	Removes pums & threads from cloth while printing		5 kg/10kg/30kg
<b>DSR</b>	Dye Stuff remover (chocking remover)		35 kg
<b>Chromic Flaks</b>	Nickel screen cleanser powder		30kg/50kg
<b>Chromic solution</b>	Nickel screen cleanser liquid		35kg

## TEXTILE AUXLLARIES

<b>HT</b>	Base coat for Blanket coating		10kg
<b>MT</b>	Cloth fixation on blanket for printing with high bonding		10 kg
<b>LT</b>	Cloth fixation on blanket for printing with medium bonding		10kg
<b>SCOURING AGENT</b>	Disseizing agent to remove impurities from gray fabric		30kg / 50 kg
<b>SILICONE EMULSION</b>	Finishing agent and filler for better smoothness & softness		50 kg
<b>Clear 5000</b>	Specially developed non-water product for Rubber effect & emboss like feel		
<b>Green acid</b>	Non-hazardous ecofriendly product to maintain PH levels		50 kg

## PRINTING CHEMICALS

PRODUCTS	END APPLICATION	PRICE (pkg)	PACKAGING
<b>REACTIVE SERIES (H, HE &amp; ME )</b>	reactive dyes for dyeing & Printing in all series .		
<b>PIGMENT FINE PASTE</b>	All Colour		30kg, 50 kg
<b>REACTIVE THICKENER (ORGANIC)</b>	Emulsion developed with organic ingredients to enhance fixation of Reactive dyes on viscose, cotton, hosiery & blend qualities of fabric		120 kg
<b>SYNTHETIC THICKENER</b>	Emulsion developed with acrylic base for instant printing to achieve best results on cotton, viscose, satin & blend qualities.		60 Kg
<b>PIGMENT THICKENER</b>	Developed to achieve better viscosity of pigment binder paste		50 kg
<b>ALGINATE GUM</b>	Natural source of gum to achieve best results for reactive printing & reactive discharge printing		20 / 50 kg
<b>CMC POWDER</b>	Carboxymethyl Cellulose (CMC) high filtered powder, widely used in printing and dyeing and has higher cost performance compared with sodium alginate.		
<b>PRINT O-FIX (ACRYLIC BINDER)</b>	Developed for optimized high definition printing & color yield. Excellent softness and fastness.		220 / 50 kg
<b>BINDER 4000</b>	Developed for obtaining and fixation of pigment dyes with maximum dyes utilization		220 / 50 kg
<b>INK WHITE 200</b>	Specially designed to achieve best smoothness & brightness for critical & sharp designs (shirting & suiting)		60 Kg
<b>SUPER KHADI</b>	Developed to achieve brilliant brightness & whiteness in printing on dyed fabrics		60 Kg
<b>DISCHARGE COLOR KHADI</b>	A product developed to add extra color value & yield discharge effect on dark dyeing		50 kg
<b>GOLD BINDER</b>	Product specially developed to enhance brightness of foil printing and maximum fixation with high viscosity.		200 / 50 kg
<b>FIXXER CCL (MELAMINE BASE)</b>	Used for achieving better fastness and fine fixation of pigment dyes on fabric.		50 kg
<b>MULTIPLE SOFTENER</b>	Single use reactive softener for maximum body filling, smoothness & soft feel.		50 kg
<b>OT PASTE</b>	Wetting / Re-wetting agent		50 kg
<b>GOLD / ALL COLOR</b>	Ready to print gold paste for hassle free printing without binder and foil. Available in all colours. Guaranteed brightness		
<b>EMAROL RT</b>	Specially developed wetting agent for scouring, penetrating & leveling of dyeing and printing. Multiple use in every process		50 kg
<b>LIQUID SOAP</b>	Anionic ,eco friendly, Bio degradable , NPEO-APO free washing/soaping agent; excellent product for all dyed, printed, natural and synthetic fabric/dyed yarn.		
<b>CHEMFILL</b>	Specially formulated high filtration mineral compounds		25 kg

• Specialized Products Not on the List • Product prices on request only

Dhvani industries Pvt Ltd established since 2001 is a pioneer textile chemical manufacturing company with leadership in various printing auxiliaries, engraving chemicals , photo emulsions , nickel screens , thickeners along with many speciality chemicals . Company has gained immense position in the industry by offering high quality customised products at an optimum cost. Achieving landmarks with a highly skilled & experienced team we focus on innovation & excellence . Company follows a strict quality evaluation policy and Have systematic check on product dispatched to our customers . Due to wide range of product availability with us, our esteemed customers prefer us as a one stop solution for their requirements . The company is spreading its wings worldwide with a rapid growth as our products are very well accepted around the Globe & within India . Sincere commitment to our customers has made Dhvani industries Pvt Ltd a first choice for textile chemicals requirement of conscious buyers .
