

BE50 Pilger Die

BE50 Pilger Die is a high-precision industrial die designed for metal forming and pilger rolling applications. The product is manufactured using premium-grade tungsten carbide and steel materials to ensure excellent durability, wear resistance, and dimensional accuracy. It is suitable for heavy-duty industrial operations and provides stable performance for continuous production processes.

Specification	Details
Usage	Industrial
Material	Tungsten Carbide / Steel
Shaping Mode	Die Casting
Size	Standard
Color	Silver
Working Process	Punching, Stamping, Bending
Supply Ability	100 Pieces Per Month
Delivery Time	2-10 Days
Warranty	1 Year
Domestic Market	All India
Export Market	Asia, Middle East, Africa
