

LG40 Pilger Die

LG40 Pilger Die is a high-performance industrial tooling component designed for precision tube rolling and cold pilger mill applications. Manufactured using premium quality steel and advanced machining technology, this die ensures excellent dimensional accuracy, long service life, and superior wear resistance. It is widely used in metal processing industries for seamless tube manufacturing and shaping operations.

Specification	Details
Usage	Industrial
Material	Steel
Shaping Mode	Die Casting
Product Type	Pilger Die
Color	Silver
Size	Standard
Surface Finish	Polished
Application	Tube Rolling & Metal Processing
Hardness	High Strength
Warranty	1 Year
