

# LG75 Pilger Mandrel Catalog

## Product Description

LG75 Pilger Mandrel is a precision engineered industrial tool designed for high-performance tube rolling and cold pilgering applications. Manufactured using premium grade alloy steel, the mandrel offers excellent dimensional accuracy, superior surface finish, and long operational life. It is widely used in seamless tube manufacturing industries for consistent and efficient production.

## Product Specifications

Specification	Details
Product Name	LG75 Pilger Mandrel
Usage	Industrial
Material	High Grade Alloy Steel
Color	Silver
Surface Finish	Polished
Application	Cold Pilger Tube Rolling
Corrosion Resistance	Yes
Durability	High
Shape	Round Mandrel
