

Pilger Die & Mandrel Product Catalog

Description:

Pilger Die and Mandrel are precision-engineered tooling components used in cold pilger mills for manufacturing seamless tubes and pipes. These tools are designed for high dimensional accuracy, superior surface finish, and long operational life. Manufactured using high-grade alloy steel, they ensure excellent wear resistance and reliable performance in demanding industrial applications.

Parameter	Details
Product Name	Pilger Die & Mandrel
Material	High Grade Alloy Steel
Surface Finish	Polished Finish
Hardness	58-62 HRC
Application	Cold Pilger Tube Mills
Usage	Tube & Pipe Manufacturing
Corrosion Resistance	Yes
Durability	High
Condition	New
