

Pilger Dies Product Catalog

Pilger Dies are high precision industrial tools used in pilger rolling mills for reducing tube diameter and wall thickness. These dies are manufactured using premium quality steel and tungsten carbide materials for enhanced durability, wear resistance, and superior performance in heavy industrial applications.

Specification	Details
Product Name	Pilger Dies
Usage	Industrial
Material	Tungsten Carbide / Steel
Shaping Mode	Die Casting
Color	Silver
Size	Standard
Working Process	Punching, Threading, Stamping
Supply Ability	100 Pieces Per Month
Delivery Time	2-10 Days
Main Market	All India & Export Markets
