About Us

Tech Support is a trusted manufacturer and supplier of high-quality industrial and engineering components, committed to delivering reliable, efficient, and precision-engineered solutions to a wide range of industries. With a strong focus on innovation, durability, and performance, we specialize in the manufacturing of Metal Hoods, Back Filter Fabrication systems, EC Charging Boxes, SS Brake Discs, and other customized metal and electrostatic solutions. Our products are designed and fabricated using premium raw materials and advanced manufacturing techniques to ensure superior quality, long service life, and compliance with industry standards. At Tech Support, we combine technical expertise with a customer-centric approach, enabling us to understand specific application requirements and deliver tailored solutions that meet exact specifications. Our well-equipped production facility, skilled workforce, and stringent quality control processes allow us to maintain consistency and excellence across every product we deliver. We are dedicated to continuous improvement, timely delivery, and competitive pricing, which has helped us build long-term relationships with our clients. Driven by integrity, innovation, and professionalism, Tech Support strives to be a dependable partner for industries seeking efficient, robust, and cost-effective manufacturing solutions.

At Tech Support, our strength lies in our ability to blend engineering excellence with dependable service. We go beyond manufacturing by offering complete support from design consultation and material selection to fabrication and final delivery. Every product we supply is thoroughly tested to ensure optimal functionality and safety in demanding industrial environments.

Key Facts

No of Staff	15
Year of Establishment	2018
OEM Service Provided	No

Our Products

Body Enclosure

EV Charging Boxes

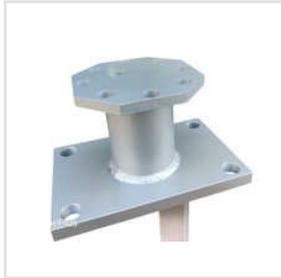

EV Charging Box

Automatic Grinding Machine

Back Filter Fabrication

Heavy Fabrication Component

Retation Tank Fabrication

SS Tank Fabrication

SS Break Disc

Waterjet Machine Component Service

SS Heavy Thickness Edge Sample

Studio Teleprompter

Sheet Metal Component Service

Copper Busbar

Sheet Metal Component

EC Charging Box

ADDRESS

Pcmc, J 72/73, Near Indrayani
Sweet Corner, Midc, Bhosari,
