About Us

Welcome to Maruti Brass Components, a known name in the brass components industry. Since our establishment in 1995 as a Sole Proprietorship firm, we take pride in being a leading manufacturer, supplier and exporter of high-quality Brass Auto Components, Brass CNC Turned Components, Forge Pipe Tee, MS Cross Pipe Plug, Sheet Cutting Components and more. Located in Jamnagar, Gujarat, India, which is called as the heart of the brass manufacturing industry, has played a role in our success. Our vision is to offer the highest quality brass products and reduce the delivery time frame for our customers worldwide.

Maruti Brass Components was established in 2012 with the prime vision of delivering world-class Precision Brass Tube Coupler Pipe Flare and Nut, MS Cross Pipe Tee, Forge Pipe Tee, Industrial CNC Turned Component, etc. Production, quality testing and other related business activities are performed in our Jamnagar, Gujarat (India) located infrastructure facility. Our team of experts ensure that the goods are properly designed and manufactured with the aid of modern technologies & machinery. Only high-grade materials are used in the production process which we source from the certified vendors. All over the world, our top-notch products are exported at a very large scale.
