

Bhaskar Alloy Castings

Leading Manufacturer & Supplier

Established in **2014**, Bhaskar Alloy Castings has quickly risen as a prominent manufacturer, supplier, and service provider in the engineering goods sector. Their extensive product range spans from essential Excavator Bucket Teeth and Adapters to robust **Alloy Cast Iron and Steel Castings**, including specialized components such as Casting Tooth Points. The company's commitment to quality is evident in its use of only the finest raw materials, carefully selected from reputable vendors to meet stringent international benchmarks. Beyond product manufacturing, Bhaskar Alloy Castings enhances its service offerings by providing professional Steel Job Works, delivering comprehensive and tailored solutions to address diverse client needs.

With a substantial monthly production capacity of **100 metric tons** and the capability to produce single-piece castings weighing up to **500- 750 kgs**, Bhaskar Alloy Castings is strategically positioned to meet the demanding requirements of heavy engineering and equipment manufacturing. The company proudly serves critical industries like stone crushing machinery, cement plants, and mining, supplying essential components such as excavator bucket tooth points, adaptors, and stone crusher spares. Through unwavering dedication to quality and precision, Bhaskar Alloy Castings consistently ensures its products not only meet but exceed the expectations of its valued customers across a wide range of industrial applications.
