

Auger Filler Machine

Features & Advantages

Product applications	Free flow Powder material
Filling Size	5 – 1000 gm (Specific range in a machine)
Feed Output	As per the requirement (Timing/Load cell)
Feeding system	With/Without Mixer
Hopper	As per the requirement
Electrical Supply	220V, Ac, single phase, 50Hz
Machine control through	Automated/Manual
Contact parts	Stainless Steel
Machine speed	25-50 Filling per min (Depends upon machine type and product)
Power Consumption	1.5 kw approx.
Machines dimensions	Customized as per the requirement
Accuracy	+/- 1 to +/- 5 % (Depends on machine type)
Optional Features (At an extra cost)	Servo based system Nitrogen flushing systems Capping System Sealing system
