

Pneumatic Pouch Packing Machine

Features & Advantages

Product applications	Fryums, Powder, Granules, Free flow material
Sealing type	Center sealing, 3 side sealing
Roll Width	Width: 140mm to 400mm
Feeding system	Volumetric cup filler/Weigh filler
Electrical Supply	220V, Ac, single phase, 50Hz
Packing film	Any heat sealable laminated roll
Machine control through	Our Controller/PLC (Delta)
Color mark system	Standard
Contact parts	Stainless Steel
Heater Load	150 w x 2 Nos; 300 w x 2 Nos
Packing film pulling	Motorised System
Temperature controller	PID based
Machine speed	25-50 Pouches per min (Depends upon quantity and product)
Power Consumption	2 kw approx
Machine Motion	Intermittent
Machine Weight	300kg approx
Machines dimensions	Height 84 inch x length 42 inch x width 42 inch
Optional Features (At an extra cost)	Batch coding device Nitrogen flushing systems batch cutting
Air supply needed	6 cfm
