Product overview: 59 MAX+ Infrared Thermometer

The Fluke 59 MAX+ Infrared Thermometer delivers the precision you need to do your job accurately and within your budget. It features a 10:1 distance to spot ratio and precise single laser targeting for accurate and repeatable measurements. Use the Fluke 59 MAX+ to perform non-contact temperature measurements on transformers, motors, pumps, panels, breakers, compressors, duct, and vents. It is extremely easy to use and compact enough to fit in your hand and your tool bag. Designed to withstand a one meter drop, you can count on this lightweight, compact infrared thermometer to work when you need it.

For a 12:1 distance to spot ratio, dual laser targeting check out the Fluke 62MAX+ thermometer.

Other useful features:

- Provides selectable MAX, MIN, DIF and AVG functions to quickly identify problems
- One meter drop tested
- Includes Hi and Lo alarms for rapid display of measurements outside the limits
- Runs on one (1) AA battery
- Comes with a one year warranty
