About Us

Established in the year 2022, Green Star E-Waste Recycling Solution has rapidly emerged as a trusted manufacturer in the e-waste recycling machinery industry. We specialize in designing and manufacturing a comprehensive range of equipment, including E Waste Recycling Plant, E Waste Recycling Plant, Waste Recycling Machine, E Waste Shredder, and much more, catering to the growing demand for sustainable e-waste management solutions across India. Despite being a relatively young company, we have carved a niche for ourselves through consistent quality, innovation, and dedication to customer satisfaction. Our extensive network of branches spread across India enables us to serve clients efficiently, ensuring prompt delivery, reliable support, and easy accessibility no matter where our customers are located. Every machine we manufacture is built using advanced technology and durable materials, ensuring optimum performance, safety, and longevity.

Based in Bagpat, Uttar Pradesh, India, Green Star E-Waste Recycling Solution is a trusted manufacturer specializing in high-quality e-waste recycling machinery. We offer a reliable range of Industrial Chimney, Radial Drilling Machine, Gold Refining Machine, E Waste Dismantle Table Line and other allied equipment, designed to meet the growing demands of the recycling industry. Our machinery is built using advanced technology to guarantee durability, safety, and optimum performance. Committed to innovation and customer satisfaction, we continue to strengthen its presence as a dependable name in the recycling machinery market.
