

EXPORTER, MANUFACTURER, SERVICE PROVIDER

AND SUPPLIER OF

WATER AND WASTE WATER TREATMENT,  
SEWAGE TREATMENT AND OTHER SPECIALIZED PROCESSES,  
SUITABLE FOR REFINERIES,  
PETRO-CHEMICAL, TEXTILES, PHARMACEUTICALS, MINING,  
EDIBLE OILS, PAPER AND PULP ETC.

5 KLD, API 34576, API Separators, Air Saturation Vessel, Carbon Canister, Cross Flow Separator, DAF, DAF FOR BORL REFINERY, Daf Top Skimmer, Dissolved Air Flotation System, Dissolved Air Flotation, Dissolved Air Flotation Systems, Effluent Corrugated Plate Packs, Flash Mixer Agitator, Flow Distribution Baffle, etc.

**CROSS FLOW SEPARATOR**

**TPI SEPARATORS**

**DAF**

## About Us

K-Pack System Private Limited was promoted initially as a water treatment division of the Zaverchand Group Baroda (Gujarat) in 1987. Starting as the agents for Pielkenrood Vinitex Holland, the original patent holder of the plate packs technology, K-Pack was converted into a full fledged company in 1991 to handle the growing business of water treatment in India. K-Pack was responsible for introducing this technology into India and has within the last ten years emerged as a market leader in its specialized field. K-Pack has built up a strong technology cell for in-house designs and drawings, which translate into quick and efficient responses. All systems are CAD operated and of international standards, and meet stringent quality and acceptability norms of all local and foreign consultants.

K-Pack technology includes water and waste water treatment, sewage treatment and other specialized processes, suitable for refineries, petro-chemical, textiles, pharmaceuticals, mining, edible oils, paper and pulp etc., and most systems are based on the use of plate packs for removal of contaminants. Other companies in the group include Flexican Bellows which manufactures Bellows in stainless steel and other alloy materials and are the largest in their field. Heetu Chemicals is a division catering to the trading activity in chemicals and related items. Another company, Zaverchand Sports Equipments is the fastest growing company in the field of sports products with emphasis on golf and related equipments.

## Key Facts

<b>No of Staff</b>	50
<b>Year of Establishment</b>	1991
<b>OEM Service Provided</b>	No
<b>Memberships</b>	TUV NORD

## Our Products

**Plate Pack Coalescer**

**5 KLD**

**API 34576**

**Organic Liquid Phase Separator**

**Effluent Corrugated Plate Packs**

**SS Plate Pack Frame**

**Lamella Plate Settler**

**Flash Mixer Agitator**

**Frp Plate Pack**

**Daf Top Skimmer**

**Tiled Plate Interceptor**

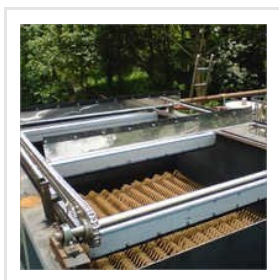

**Inbuilt Flocculator With Lamella Settler**

**Pipe Flocculator**

**Steel TPI Separators**

**Dissolved Air Flotation Systems**

**Skid Mounted Daf With Aeration Pumps**
