About Us

Juzy Engineering Works is a trusted manufacturer and supplier of precision glass processing machinery, headquartered in Delhi, Delhi, India. Since our establishment in 2017, we have focused on delivering engineered solutions that support efficiency and quality in glass fabrication and finishing processes. Our machines help workshops and industrial facilities achieve consistent, high-quality results in glass edge treatment and surface refinement. Juzy Engineering Works offers a wide range of specialized machines tailored to glass processing applications. Our portfolio includes Glass Edge Polishing Machine, Glass Grinding Machine, Semi Automatic Beveling Machine, Glass Polish Machine and Corner Rounding Machine. These products support finishing tasks such as edge smoothing, surface grinding, bevel formation, polishing, and corner rounding, aiding efficient fabrication of architectural glass, mirror glass, laminated panels, and other glass types.

Our approach emphasizes practical machine design, reliable performance, and ease of operation. Every model is developed with consideration for real-world glass processing tasks, balancing robust construction with operational reliability. We maintain structured manufacturing workflows that ensure uniform quality across our equipment range. This helps clients rely on consistent performance and long-term usability for their production needs.
