About Us

Sawariya Mould Plast is a reliable manufacturer and supplier of high-quality Air Cooler, Plastic Air Cooler Body, and more. To our esteemed customers, we provide an exclusive selection of cooler bodies available in various sizes and specifications. We use state-of-the-art machinery and superior grade parts and components to produce the bodies of our air coolers. The unique qualities of our products such as its thick plastic body, durability, extended working life, and faultless functionality are much valued by reputable clientele. For the different customer categories, we can handle large orders.

With our cutting-edge infrastructure unit on site, we are expertly equipped to meet the demanding needs of our clients. Equipped with all the modern amenities, we can complete the manufacturing procedure in an excellent way. Additionally, our team of professionals handles all business-related tasks and never compromises on the quality of the products. We have established a reputable name for us in this industry by providing our clients with the highest calibre items at fair costs. We have been successful in providing the most effective service possible to meet the specific needs of our clients. Our ability to deliver goods on time has aided in gaining their trust.

Founded in 2013, in the capital city of India, New Delhi, Sawariya Mould Plast is a manufacturer and supplier of Air Cooler, Plastic Air Cooler Body, and more. We focus all of our efforts on exceeding the expectations of our customers by giving them high-quality products that satisfy them. To maintain good customer relations, we also adhere to moral business practices and absolute transparency in all of our dealings. As a well-known producer of quality goods, we value maintaining a strong, long-lasting relationship with our affiliated clients. To the fullest extent possible, our specialists and professionals work to the best of their abilities. We owe a debt of gratitude to our mentor, whose unwavering support and guidance have enabled us to achieve exponential growth in the present market.
