

# ***Skies Pharma***

***A Complete Pharma Machinery Solutions***

**A Leading Manufacturer of Processing Systems, for Biotech, Pharmaceutical, Cosmetic, Chemical and Allied industries.**

## Company Profile

Established in the year 2022, **Skies Pharma** is a Private Limited company based in Vasai, Palghar Dist engaged in manufacturing of 'Processing Systems' both in standard and custom designs. With our good experience in this field, we are highly confident and working with dedication to provide our customers with a high quality standard of equipment and machinery plants at exceptionally economical price.

We emphasis on quality and customer service that our customers find in all aspects of our work. We serve our customers with outstanding responsiveness, execution and delivery of product. We believe in ongoing involvement in the production planning process which allows us to anticipate, rather than simply reacting to our changing production requirements.

## Customer Service:

We are committing unmatched customer service to all our clients across India. Whether there is a national or international dealing, at **Skies Pharma** we promise excellent customer service in terms of product delivery, product information and online and offline support.

## Quality

### Guaranteed Quality:

We have achieved extreme quality product performance while maintaining the personalized service you want. With a large team of professionally talented technical persons, marketing personals and customer service support **Skies Pharma** provides guarantee of high quality Processing Systems and after sales service. Our rework rate is very low as we employ latest manufacturing and design technology.

When it comes to machinery parts and other components used in Processing Units and Instruments, we use high quality branded parts. This lets you save money on rework and have ready availability of the right parts when you need them.

## Our Vision

**“To deliver excellence at the most”**

Our brand’s vision is to get the best and deliver the best always to our trusted customers. Keeping this idea in mind we always provide excellent quality products and reliable service in the market without compromising anyways and that too at very competitive pricing.
