

Auto Brake Euro Type Double Twist Buncher

Variety Of Affordable Products Available At One Single Podium

380V Extrusion Line For PTFE Cable, 380V Extrusion Line For Silicon Cable, 380V Extrusion Machine For Physical Foam Coaxial Cable, 380V High Speed Wire Cutting Machine, 45KW Flat Cable Extrusion Machine, 7.4HP Pairing Double Twist Buncher Machine, 7.5KW Tubular Strander Machine, Auto Brake Euro Type Double Twist Buncher, Auto Brake Pairing Double Twist Buncher Machine, Automatic Computer Shake Plate Machine, Automatic High Speed Cable Making Machine, Cable Extrusion Machine For Chemical Foam PE Cable, Double Column Feeder Machine, Double Head Parallel Power Line Machine, Ground Line Extrusion Machine, etc.

**7.4HP PAIRING DOUBLE TWIST
BUNCHER MACHINE**

**AUTO BRAKE PAIRING DOUBLE
TWIST BUNCHER MACHINE**

**AUTO BRAKE EURO TYPE DOUBLE
TWIST BUNCHER**

About Us

A professionally managed engineering company, Wai Tak Lung Engineering Factory has become a preferred establishment in the global market for sourcing hi-tech solutions at industry leading rates. Our Dongguan, Guangdong (China) based enterprise maintains smart technology machines and equipment at an advanced production unit to design, develop and produce Pairing Double Twist Buncher, European Design High Speed Braiding Machine, Auto Cooler Machine Basket Take Up Wire Machine, Halogen Free Cable Extrusion Machine, etc. Our heavy duty and fast working machines have in them the best components and technology, which makes these efficient and successful.

Exporter and manufacturer business roles that we have been playing since 1998 are getting to us more and more accolades and customers. Quality production is done by us to provide our customers nothing short of cost-effective and value-for-money machines. International Trading The job of internationally trading requires an establishment to have strong financial back and supportive experts. Knowing this and with a desire of establishing our business across international markets, we have made our financial position strong and hired experts at our company. With the assistance of both of these, we have been able to market and supply our heavy duty machines, worldwide. For international trading, we follow stringent norms of international countries.

Key Facts

Nature of Business	Manufacturer
Primary Competitive Advantages	buncher,
No of Staff	150
Year of Establishment	1988
OEM Service Provided	Yes
ProductRange	buncher,

Our Products

Automatic High Speed Cable Making Machine

Industrial High Speed Taping Machine

Three Layer Wrapping Machine

High Shielding Machine For Heating

Cable Extrusion Machine For Chemical

7.5KW Tubular Strander Machine

Industrial Single Twist Buncher Machine

Industrial Back Twist PAF Off Machine

High Tech Dual Reel Tapping Machine For

Vertical Braiding Machine

380V Extrusion Machine For Physical

380V Extrusion Line For PTFE Cable

Halogen Free Cable Extrusion Machine

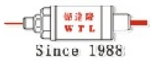

45KW Flat Cable Extrusion Machine

Industrial High Extrusion Line For

Industrial High Speed Cable Making Machine

ADDRESS

B No. 31 Liyuan Road, Huaide Area, Humen, Dongguan, Guangdong, China (523000).
