About Us

Founded in 1996, we, Super Cryogenic Systems Pvt. Ltd. have been an ISO 9001:2008 and CCE-authorized company, working as a trustworthy manufacturer and supplier of a wide range of cryogenic equipment. Our products include Liquid CO2 Storage Tanks, Liquid Reciprocating Pumps, Ambient Vaporizers, Cryogenic Storage, Liquid CO2 Cylinder Filling Stations, and other related cryogenic equipment. The products are made by considering requirements of customers in mind, so only high-quality raw materials are used in their production. These products are widely used in research institutes, fertilizer plants, pharmaceuticals, hospitals, chemical, steel plants, and allied industries, because of their high efficiency, low power consumption, reliability and robustness. We facilitate trade in the Indian Subcontinent, East Asia, Latin America, and the Middle East.

The majority of our clients have purchased finished structures from us on a turnkey basis. Our frameworks are designed, paying attention on every aspect to have increased productivity for a revised application. Most of our prestigious and esteemed clients have given us repeat orders as the execution of our frameworks has been extensively valued by them.
