About Us

Dstar Electra India Private Limited has a solid reputation in the automotive cleaning space for providing reliable and effective solutions that make cleaning easy. As manufacturers, suppliers, and exporters, the company has technology which means you can be guaranteed a clean that is scratch-free and gentle, all whilst maximizing performance and efficiency. Environmentally friendly operation with low water use and energy-efficient performance means every system is affordable while providing quality throughout.

From entry-level touchless car wash machines and fully automatic car top washing systems, all the way through to electric steam car washer machines and automatic car dryers, we cover the market with innovative and convenient solutions. And every one of our solutions incorporates features that allow for hands-free operation, high-level precision and consistency, plus long-lasting durability designed for heavy-duty use. Whether its a touchless car wash, car wash with dryer system, single post lift, a pressure washer, or an automatic rigid car washing system, we have automobilia that guarantees usability, versatility, and all your existing structures will be able to accept them.
