About Us

Belami Fine Chemicals Pvt Ltd stands as a distinguished name in the chemical industry, committed to manufacturing, supplying, and exporting a comprehensive range of high-purity fine chemicals. The product line includes phenyl hydrazine hydrochlor, murexide powder, dimethyl glyoxime, sodium nitroprusside, bromothymol blue, resazurin sodium salt, fluorescein sodium, and bismuth subgallate. These industry-grade and lab-grade chemicals are known for consistent batch-to-batch quality, backed by stringent quality control and ISO-certified manufacturing facilities.

A legacy built on precision and innovation, we are trusted by research institutions and industries worldwide. With scalable order quantities, competitive pricing, and custom packaging options, the company delivers tailored solutions that align with diverse client requirements. Fast, secure delivery and reliable supply chain management ensure timely fulfillment, while technical support and complete documentation add value at every stage. Every product adheres to international quality standards and embodies environmentally responsible production practices, reinforcing the company's dedication to safety, compliance, and customer satisfaction.

Key Facts

No of Staff	25
Year of Establishment	1957
OEM Service Provided	No

Our Products**Sodium Bismuthate****Potassium Sulphate****Alpha Naphthol****Fluorescein Sodium****Sodium Nitroprusside****N-1 Naphthylethylene
Diamin****Bromocresol Purple****Ninhydrin Powder****Resazurin Sodium Salt****Bromophenol Blue****Dimethyl Glyoxime****Phenyl Hydrazine
Hydrochlor****Methyl Orange****Hematoxylin Powder****Dithizone Powder****Bromothymol Blue**
