About Us

It is very important for an organization to have the requisite industrial knowledge, manufacturing facilities and efficient workforce to process Industrial Acid of highest quality to meet customers' requirements. Backed by these advantages, Acid Industries embarked on a journey in the field of Industrial Acid. We are a leading Manufacturer and Supplier of various chemicals such as Acid Distillation, Sulphuric Acid 98%, C.P., L.R., & A.R. (H_2SO_4), Hydrochloric Acid C.P., L.R., & A.R 35%–37% (HCL), Nitric Acid C.P., L.R., & A.R 70% (HNO_3), etc. These are available at very competitive prices and are used for various acid distillation applications in industries.

Since we comply to quality norms as per the industrial standards, our products are highly effective, pure, and uncontaminated. We are well backed up by a team of highly qualified workforce, who work effortlessly and in close coordination with each other to come up with the most qualitative range of products. Besides, we mainly cater Maharashtra based clients and also carry out an On-Site Emergency Plan at our Mahad premises under the Maharashtra Industrial Engineering Services, which has given our company immense recognition in the industry.
