

PDBAB-232923938 - 8 Chute Sorter Machine

Description:

The 8 Chute Sorter Machine is a high-capacity industrial color sorting machine designed for precise sorting of rice, grains, pulses, seeds, coffee beans, spices, tea, dry fruits, and plastic granules. Equipped with advanced optical cameras, intelligent image processing, and a touchscreen control panel, it provides high sorting accuracy, reliable performance, and energy-efficient operation for continuous industrial use.
