

PDBAB-320733901 - 10 Chute Sorter Machine

Description:

The 10 Chute Sorter Machine is a high-performance industrial color sorting system engineered for large-scale processing of rice, wheat, pulses, grains, seeds, coffee beans, spices, dry fruits, and plastic granules. Featuring ten sorting channels, intelligent optical cameras, and an advanced touchscreen control system, it delivers up to 99.9% sorting accuracy, high throughput, stable performance, and energy-efficient operation for continuous industrial applications.
