

PDBAB-350908939 - 7 Chute Sorter Machine

Description:

The 7 Chute Sorter Machine is a high-capacity industrial color sorting machine designed for precise sorting of rice, wheat, pulses, grains, seeds, coffee beans, spices, tea, and plastic granules. Equipped with seven sorting channels, intelligent optical sensors, and a touchscreen interface, it ensures up to 99.9% sorting accuracy, high productivity, stable operation, and energy-efficient performance for continuous industrial applications.
