About Us

Buildrich Construction Equipment Private Limited was founded in 2012 and has since proudly carved out a position for itself as a pioneer in the construction sector. Our experience bears witness to ten years of steadfast dedication to quality, innovation, and client satisfaction. From modest beginnings, we have developed into a powerful force offering a wide variety of form-work systems, scaffolding, and construction equipment. Our commitment to quality, observance of global standards, and incorporation of state-of-the-art technology have allowed us to establish ourselves as a reliable partner for building projects in India and beyond over the years. Buildrich is more than just a business; it's a narrative of expansion, tenacity, and an unwavering commitment to providing our esteemed customers with superior solutions.

We, Buildrich Construction Equipment Private Limited, take pride in being a premier manufacturer of Bar Bending Machine, Tower Crane Concrete Bucket, Scaffolding H Frame, Wall Form Shuttering, etc. Our unwavering dedication to excellence, coupled with our customer-centric approach and global reach, makes us the preferred choice for construction companies seeking reliable and efficient solutions for their projects.
