About Us

Mr. Narayana Prasanna founded Supram Industries in Bangalore, India in 1994. As a professionally managed company, we produce a variety of B2B products, such as sub-assemblies and electronic embedded products for a number of applications in society and industry. Precision metal components, Automobile seats, Stamped and pressed metal components, Fabrication, and other engineering products are among the range of products offered by the company.

As one of the country's leading SMEs, Supram is engaged in the manufacture of CNC-machined components, pressed sheet metal components, slider assemblies for automobile seats, sub-assemblies, jigs-fixtures, and other allied engineering products. The machines, design software and measuring instruments we have are all top of the line.

Recently introduced is a new IoT enabled product - RiGAS - India's first LPG management system, LPG Management System, LPG Cylinder Management System with an integrated gas leak alert system that connects to four smartphones simultaneously to track usage and locate gas leakage to prevent LPG fire accidents.

Key Facts

Nature of Business	Manufacturer
No of Staff	80
Year of Establishment	1994
OEM Service Provided	No
Memberships	SSI, MECMA.
