About Us

Positronics India, sends a signal to us of mass less unit Positively charged particles. The name resembles to electron. Electronics but of opposite charge. The company was formed five years back by its founder Mr Shyama Prasad Manna, a Btech Hons from IIT Kharagpur (1985) with the idea of developing innovative products in the field of New and Renewable Energy for domestic and Industries simultaneously running the show with the conventional projects.

We are successfully meeting the demands of various industries in this competitive market as a profound service provider. We render quality services like Industrial Automation, Turnkey projects, Design and Engineering on instrumentation, developing PLC/SCADA based systems or even component level developments, etc. In addition, we are also manufacturing Plasma Gasifier. This range is designed keeping in mind the demand of the market, pocket size of the customers and application area. We render our services at industry leading prices and also in customized form to suit the specific requirements of the market. Along with the projects Positronics joined hands with M/s Masibus Process Instruments Pvt Limited, Gandhinagr, a leading manufacturer of process Instruments and also represents various world leaders for their manufactured products.

Key Facts

| | |
|------------------------------|------|
| No of Staff | 15 |
| Year of Establishment | 2005 |
| OEM Service Provided | No |

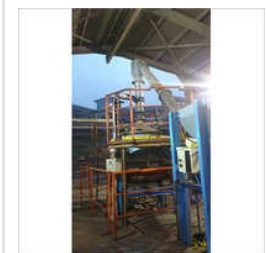

Our Products

Calibration Lab Services

Data Acquisition SCADA System

Waste Plasma Gasifier

Control Desk Design

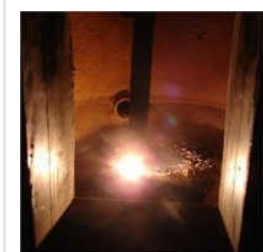

Automation Services

Communication Engineering Services

Plant Automation Services

Plasma Gasifier

Automation Turnkey Projects

Plasma Arc Gasification

Plasma Gasification

Gas Producer Plant Instrumentation
