Leroy was established on some very simple yet crucial facts and principles. Globally, people increasingly need clean, wholesome foods and supplements that provide health and medical benefits.

“Nutraceutical” is a term combining the words 'Nutrition' and 'Pharmaceuticals', and refers to a food or food product that provides health and medical benefits, including the prevention and treatment of diseases.

Our nutraceutical products range from isolated nutrients, dietary supplements, herbal products, and processed foods such as cereals, soups, and beverages.

Nutraceutical as “a product isolated or purified from foods, and generally sold in medicinal forms not usually associated with food and demonstrated to have a physiological benefit or provide protection against chronic diseases.”

Our strength in Chewable Tablet and Taste of Oral liquid production is based on the advanced technology we adopt and manufacturing experience and knowledge. Our strict internal control standards ensure that the quality of all the products complies with the international standards.
