# About Us

Established in the year 1999, we, Jaydeep Engineers are driven by the vision of supplying high quality products to all our customers. We are actively involved in the market as a renowned manufacturer and supplier of Single Tension Hardware Fittings, Aluminium Argon Welding, Aluminium Die Casting, Aluminium Gravity Dies, Aluminium Tube Welding, etc. All the products are made by utilizing advanced production methods; they have applications in various industries. Backed by our skilled professionals and ultra modern manufacturing unit, we are able to provide products with various specifications according to the needs of the customers. The quality control system followed by us is based on strict policies and our unwavering commitment towards product quality. Post production stage, all the products are examined on the basis of physical, chemical, electrical and mechanical properties. We are experts in specialized production techniques like shot blasting, sand blasting, and proof machining. These are used to provide supreme quality products on a regular basis. The castings that we provide to our customers are made in accordance with various quality standards like IS, BS, DIN and ASTM .

## Services We Offer

Our organization has grown at an incredible pace with the support of a highly skilled and professional workforce. With the mission of meeting industry's demands in an efficient way, we are consistently manufacturing high quality products at nominal prices. Our advanced machinery for production as well as quality assurance mechanism, allow us to supply castings of various grades in accordance with international standards & norms. The superior quality of our products has allowed us to establish a massive customer base. We have been catering to the needs of various industries of Gujarat, Madhya Pradesh, Maharashtra state and many Govt. organizations.

## Skilled & Talented Team

We employ a team of highly dedicated workers who help us in fabricating and delivering our impressive range of Aluminium Die Casting, Aluminium Gravity Dies, Aluminium Tube Welding, Single Tension Hardware Fittings, Aluminium Argon Welding, etc. to customers all over the country. Our production experts study the market behavior and trends and make optimum use of raw materials to make our impressive array of products. Our workforce ensures that our range of products is kept safely and delivered to the clients in the best condition and in a timely manner.

# Our Products

**Die Casting Job Work**

**Aluminium Custoized Die Casting**

**Pressure Aluminium Die Casting**

**Sand Aluminium Die Casting**

**Machine Part Aluminium Die Casting**

**Round Aluminium Die Casting**

**Aluminium Adjusted Die Casting**

**Bushing Aluminium Die Casting**

**Industrial Aluminium Die Casting**

**Pure Aluminium Die Casting**

**Top Cover Aluminium Die Casting**

**Power Transmission Line Hardware**

**Transmission Line Hardware**

**Aluminium Die Casting Parts**

**Electrical Transmission Line Hardware**

**Transmission Line Hardware Fittings**

**Single Tension Hardware Fittings**

**Industrial Gravity Die Casting**
