

MEET MARKETING (I) PVT. LTD.

One-Stop Solution For PVC & cPVC Industries

About us

Meet Marketing (India) Pvt. Ltd. (MMPL) is a leading chemical distributor with a turnover of more than **\$75 million**, serving the PVC, CPVC, food, Construction Chemicals industries. We offer a one-stop solution to manufacturers for all their raw-material needs. We source our chemicals from global suppliers known for their quality and consistency, such as LG Chem, Sun Ace, Honeywell, Omya, Fine Organics, etc. With our robust infrastructure, supply chain network, team of technical experts, and market intelligence, we provide excellent customer service that adds value beyond raw material supply.

Mission

An organization that provides one-stop solution by offering a wide range of high-quality products and services to all our valuable customers.

Vision

To be #1 specialty chemical supplier in India.

25+

Years
in business

over years

Jagdish Thakkar

Managing Director

"I entered the plastic industry in 1991 when I moved to Ahmedabad looking for work. During that period plastic industry was booming and there was a strong need for an ethical corporation that could provide a consistent supply of quality raw material to different manufactures at a value for money price. I soon realised the same, and with a vision, I established Meet Marketing in 1997. Over the course of 25 years, I have transformed MMPL into a nationally recognised corporation that provides a wide range of quality PVC raw material products and food additives to 1000+ manufactures across India.

I have helped uplift the corporation through trust, leadership qualities, and commitment towards my customers as well as suppliers. I believe that no target can be achieved without a team and thus I maintain a positive, harmonious environment within the corporation where each member can remain engaged to deliver a high level of customer satisfaction. I continually add new innovative products, implement latest technology and facilitate change to ensure that Meet Marketing is always ahead of its time.

As an organisation, we are committed to provide the best possible products and services to our valued customers so that we are able to create a symbiotic professional relationship between us and our customers."

Why MMPL?

- One stop solution – Large number of products to meet all your raw material requirements
- Uninterrupted supply and timely delivery of products through our strong supply chain network
- High quality products from leading global suppliers
- Technically experienced team to recommend most suitable products in line with customer application
- Get market intelligence like future prices & any expected fluctuations in product supply
- Systematic pricing structure
- Quality check before delivery
- Continuous addition of latest innovative products in our portfolio

Our Team and Infrastructure

Proficient and seasoned team dedicated to delivering quality and service tailored to your unique needs.

Our Clients

From Multiple Additives to Single Powerful Tailor-Made Solution

Conventional Method

PVC Resin — Heat Stabilizer
 Calcium Carbonate — External Lubricant
 Colour — Internal Lubricant
 — Titanium Dioxide
 — Impact Modifier
 — Processing Aid
 — Stearates

New Method

PVC Resin — **powerpack**
 Calcium Carbonate —
 Colour —

Advantages

- Most Advanced Formulation
- Quality Enhancement
- Cost Optimization
- Product Consultancy
- Stock Optimization
- End Product Consistency
- Eliminates Multiple Material Storage & Logistics
- Labor, Time & Energy saving by 25%
- No Wastage or Loss of Material

Power of powerpack®

Highest level of consistency & quality

We only source our raw materials from Meet Marketing, an official distributor of following top brands:

World class formulation

Excellent surface smoothness, increased mechanical properties, heat & dimension stability.

Solution for economical end-product

For non-standard products, manufacture with calcium carbonate levels upto 200 PHR.

Wide range of offerings

Different grades as per standards: ISI, ISO, ASTM, DIN, & REACH, RoHS, NSF compliant.

Value for money pricing

Due to our volumetric purchase capability.

Top facility

With automated 30000 MT / year capacity plant, R&D and testing facility.

Team of technical experts

for customer satisfaction.
