

Revolutionizing PVC & CPVC Industry with Innovative and Quality Solutions

benchmarkpolytech.com

**Benchmark
Polytechnik**

NextGen PVC Additives

All your additive needs, taken care of with Powerpack®!

A specialized, high-performance additive blend that enhances PVC and CPVC with superior durability, efficiency and performance.

Innovation-Driven Approach :

The company continuously pushes new-age additive innovations, developing advanced stabilizers and performance-enhancing solutions to meet the industry's evolving demands.

Superior Quality & Consistency :

Benchmark Polytechnik ensures quality and reliability by sourcing from top MNCs and implementing stringent quality control.

Compliance & Process Optimization :

Solutions meet ISI, ISO, ASTM D, DIN, NSF, REACH and RoHS standards, ensuring safe, efficient, and sustainable processing for manufacturers.

Cutting-Edge Facilities & Expertise :

With advanced R&D, modern labs, and cutting-edge production, Benchmark Polytechnik delivers precise, industry-specific solutions.

Diverse product range tailored to every application

Pipes & fittings

- Plumbing
- Column
- Agriculture
- CPVC
- SWR
- Electric

Speciality applications

- Door / Hollow / Industrial / Building Profiles
- Lamination Sheet and Edge Band
- Electrical Profiles
- Electrical Cable Tray

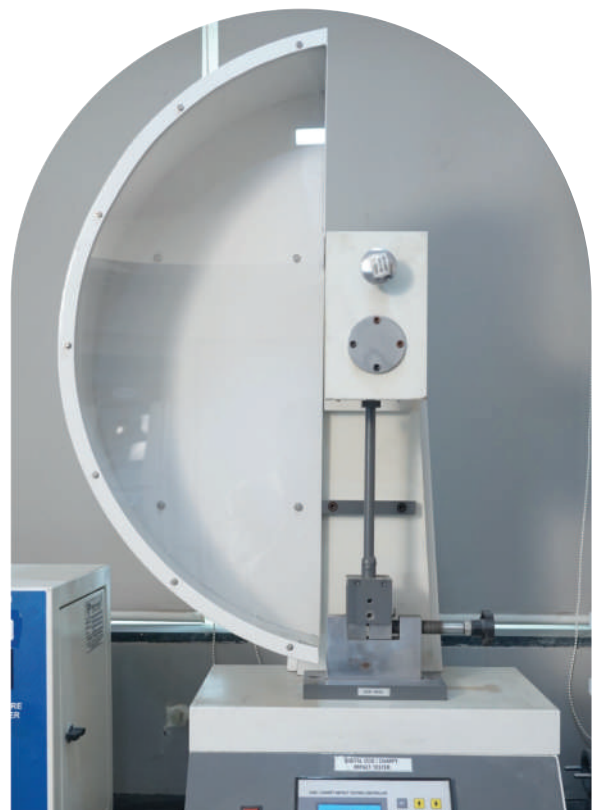

With Powerpack, ensure streamlined, **systematic production** with **built-in traceability** for complete accountability.

It's optimized for **efficient output, saving energy** and manpower while requiring **minimal automation**.

State of the art machinery

Our manufacturing facility features advanced R&D labs, **precision testing** and **cutting-edge production**.

- Torque Rheology
- Vicat Softening point tester
- Two roll mill and Pressure tester
- Drop impact tester, UTM and Izod
- Dynamic testing machine
