About Us

Earthweld Solutions LLP is a fast-growing organization dedicated to delivering dependable grounding and exothermic welding solutions for infrastructure and industrial applications. Established with a clear focus on performance and reliability, we support customers with products engineered to meet demanding operational conditions. Our commitment lies in providing consistent quality backed by professional business practices.

Operating as a Manufacturer, Exporter, and Supplier, Earthweld Solutions LLP maintains a strong operational framework that ensures product accuracy and supply consistency. This integrated business model allows us to control manufacturing standards while efficiently serving domestic and international markets. Each process is designed to support precision, scalability, and customer confidence. We offer a specialized range of grounding and exothermic welding products including Big Exothermic Weld Mould Clamp, Exothermic Welding Connection, Copper Exothermic Weld Powder, Copper Bonded Rod and Graphite Molds. These products are developed to deliver secure electrical connections, high conductivity, and long service life. Our solutions are suitable for power, telecom, railways, renewable energy, and industrial grounding systems.

Key Facts

No of Staff	10
Year of Establishment	2023
No of Production Lines	1
OEM Service Provided	No

Our Products

Graphite Mould

Spring Support Exothermic Weld

Threaded Copper Bonded Rod

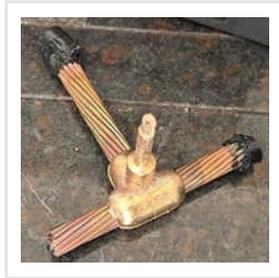

Copper Based Exothermic Welding

Exothermic Welding Tools And Accessories

Copper Exothermic Weld Powder

Exothermic Welding Connection

Exothermic Welding Connection System

ADDRESS

J 14, J Type, 1st Phase, Gidc, Near Hanuman Dada Temple, Vapi, Valsad, Gujarat, India (396195).
