About Us

Clarnigo Machines Manufacturing Private Limited is a Rajkot, Gujarat based manufacturer and supplier of innovative food processing and machinery solutions, established in 2023. Our company is committed to serving food processing businesses with dependable machines designed to improve productivity, consistency, hygiene, and operational convenience. Our product portfolio includes Multi Grain Seeds Cleaning Plant, Masala Grading Machine, Heavy Pulverizer With Cyclone, Gravy Machine, Micro Pulverizer, Onion Cutting Machine, and other specialized equipment.

Clarnigo focuses on developing robust, durable, user friendly, and cost efficient machinery for diverse processing requirements. Our Masala Grading Machine supports grading and separation of dry powdered spices, while the Onion Cutting Machine facilitates fast and uniform cutting. Gravy Machines are designed for processing wet ingredients into smooth pastes, whereas Heavy Pulverizers With Cyclone and Micro Pulverizers support efficient grinding of grains, spices, and other materials. Our company also offers cleaning, mixing, combination, and packing solutions for broader processing needs.
