ADVANTAGES OF MAGIKBOND

- Ultra modern look and excellent flatness can be shaped and formed without any loss of surface integrity.
- Lightweight, reducing frame loading and installation costs.
- Good sound insulation-reduces unwanted vibrational noise.
- Ease of insulation and fabrication-can be bent, cut, drilled, punched, stamped & shaped into complex shapes.
- Resistance to extreme of weather exposure and temperatures.
- Excellent UV characteristics retains colour after long exposure.
- Smooth paint finish and lacquering - 3 layer PVDF 70% Kynar-500.
- Superior flatness-ideal of creating smooth, monolithic surfaces.
- High impact resistance.
- Pollution, acid, alkali and self-spray resistance finish.
- Very low coefficient of expansion.
- Minimum maintenance.
- Wide range of choices available.
- Can be cleaned using detergents.

APPLICATIONS

- Magikbond is the most versatile product for exterior and interior use.
- Exteriors (curtain walling and wall paneling) of high rise apartments, industrial and commercial buildings, hospitals, hotels, gas stations, shopping malls, educational institutions, convention centers, etc.
- Roof edging and spandrel panels, wall and ceiling panels, beam wraps, etc.
- Facelift / retrofit offer buildings columns and beam covers. Interiors (wall and ceilings) of shops apartments, offices, workshops, showrooms, elevators, etc.
- Store canopies, shop fronts, sign-boards, display units, vehicle bodies, sign-posts, etc.

SUGGESTIONS

1. To ensure colour consistency, the total requirement for a project is advised to be placed in one order. It is also recommended to install the panels in the same direction as marked by arrow on protective peel-off film to avoid possible reflection differences.
2. Custom colours are also available upon request for solid colours, metallic colours and special finishes such as mirror, brush finishes etc. Subject to the respective minimum quantity.
3. Colours may vary from batch to batch. (± 5)
4. Magikbond reserves the right to make alteration and / or discontinuation of Specification for regular R&D
5. Ask for separate shade card for :
 - 3mm & 4mm Aluminum Partition Panels
 - 2mm & 3mm PET Film Design for Bus bodies, Furniture, Interior Wall
