LUXURIOUS
DESIGN

COMPANY OVERVIEW OUR JOURNEY AND VISION

Gupta Brass Products, founded by the visionary Shri R. Gupta, is a name synonymous with exceptional quality, trust, and innovative design. Our brand - NATRAJ, is the preferred choice of architects, builders and interior decorators, known for its blend of aesthetics and reliability.

NATRAJ started in 1983 with a vision of zero-defect Bath Fittings and a mission to make the best quality Bath Fittings with Elegant Designs and Luxurious Looks at an affordable price. Even after more than 40 years, Customers are still continuously demanding our Deluxe Collection which we are still manufacturing - this is nothing but strong evidence of our Brand Loyalty and our Flawless Quality.

We have a network of Buyers all over India and Outside - We not only supply to dealers & distributors but also cater to Infrastructure Industry by supplying to Builders as well. We cater to customers with varying financial powers as we believe in empowering all the people of our Great Country. We are currently exporting as well and are continuously looking to expand our export portfolio. We enjoy a vast network of Retailers, Dealers, Distributors, and Builders all over India and Outside. NATRAJ has expanded into more than 65 designs in which were liked and appreciated by the customers not only in India but also Outside India.

Guided by our motto, 'Quality First & Customer Supreme', we've maintained rigorous quality control since the inception of our bathroom fittings and accessories brand. We proudly hold ISO 9001:2000 certification and have earned PREMIER external attestations.

With precision craftsmanship and a relentless pursuit of excellence, NATRAJ delivers an unmatched bathing experience through its exquisite faucets and accessories. Explore our catalog and discover a wide range of designs tailored to suit every individual's unique style preference.

CASTING

The birth of faucet

we maintain a precise brass composition of 58% copper and 41% zinc. A core shooter machine plays a vital role in achieving even wall thickness

CASTING

MANUFACTURING PROCESS

MACHINING

The cast components are brought here to undergo a series of operations, including cutting threads, drilling holes, and creating inlets.

GRINDING

Our belt grinding facility combines skilled artisans, precision tools, and strict quality controls to produce faucets and bathroom accessories with a brilliant, gold-like finish. We prioritize precision, cleanliness, and safety and deliver exceptional craftsmanship.

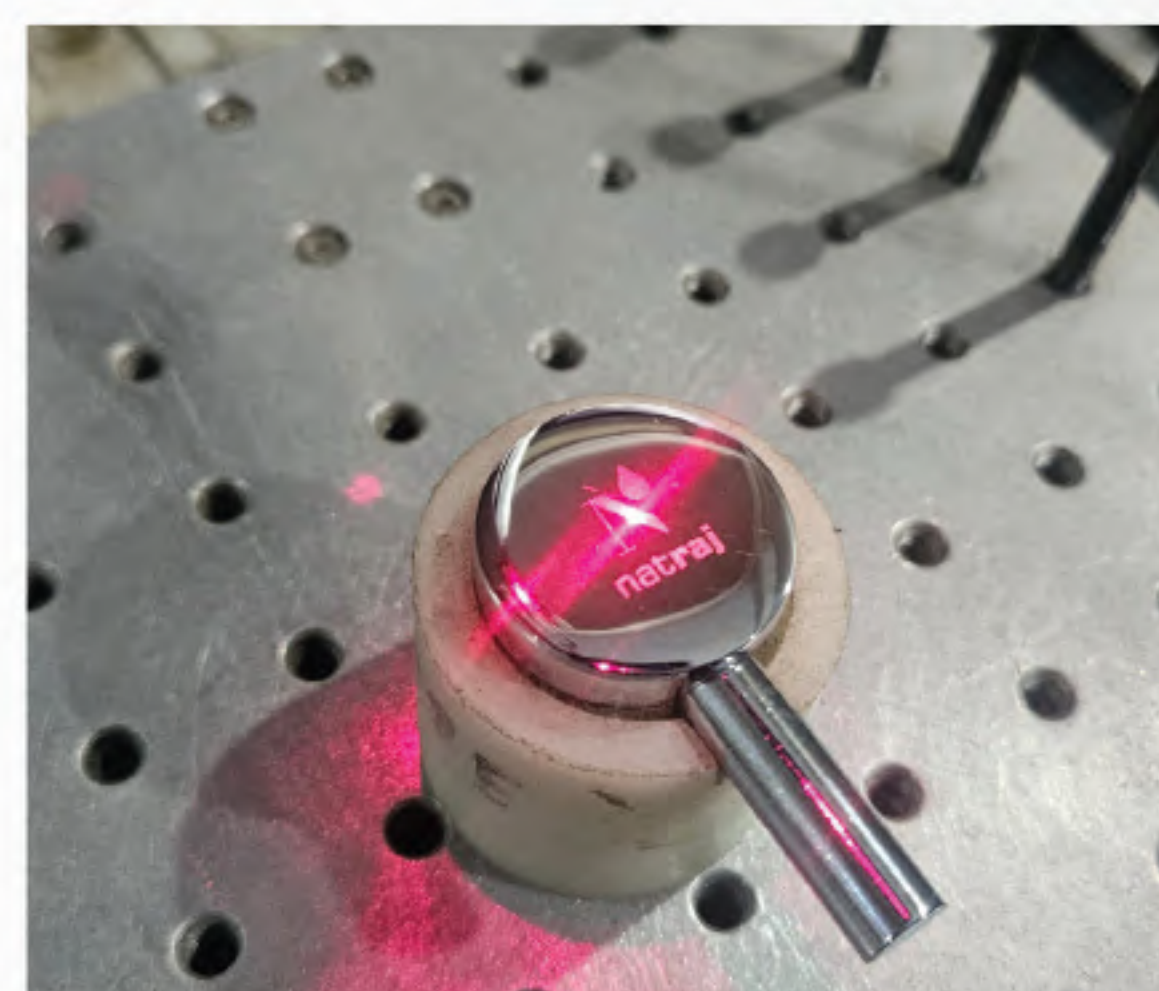

POLISHING

Seasoned artisans employ three abrasive belt types and four cloth buffs, transforming each piece into a gleaming marvel akin to gold plating.

ELECTROPLATING PLATING

Following this, the faucets passthrough anodic and cathodic tanks, each taking five minutes, further cleansing and preparing the surface. First, a 10-micron nickel plating is meticulously added in atwenty-minute process.

MARKING

During manufacturing, faucets receive precise markings for identification, compliance, and quality control. Logos, model numbers, serial numbers, and certifications are permanently applied via laser engraving, etching, or inkjet printing on faucet bodies, handles, spouts, or baseplates, ensuring authenticity, warranty tracking, and regulatory compliance.

PACKING

The assembled units then undergo rigorous testing, including 100% leak-tightness, functionality, and pressure resistance evaluations using high-precision devices. Additionally, lifespan, flow rate, sound, and surface coating strength are assessed through random sampling to ensure unparalleled performance and reliability.

CONSUMER GUIDELINES

How to remove aerator on
the faucet for cleaning

Driven by a basic belief that our products must make friends not just consumers, **NATRAJ** has initiated a major exercise in consumer education. The company's trained executives maintain a direct interface with consumers, educating them about the product quality, convenience and maintenance.

We also believe that consumers must get the best out of our products & money worth. Hence we have evolved a set of consumer guidelines. These guidelines, when followed, ensure optimum and trouble-free performance of **NATRAJ** products for years to come.

THE GUIDELINES ARE :

- Keep the number of bends in the pipelines to a minimum and make it travel straight and vertical as far as possible. More than required number of bends throttle the pressure of water.
- All the supply lines must have vent pipes. These vent pipes help in removing air-locking in the water supply to give a smooth flow of water from the fittings.
- Test the working of all the concealed fittings installed on a high pressure for leakage before plastering or fixing the tiles.
- Clean the aerators provided in the items at regular intervals for a perfect foam flow of water from the fittings.
- Place the outlet point in the overhead tank at least 25cm above the ground level of the tank. This prevents the flow of foreign particles, sand etc., along with water supply into the fittings and thereby preventing the possible damage to the working parts. Clean the tank thoroughly before the supply starts. It is suggested that the overhead tank must be cleaned at regular intervals to avoid deposition of foreign particles.
- Clean the fittings regularly with Faucet Cleaners & Soft Water to remove scaling/stains. Do not use strong detergents as this may cause damage to the chromium finish provided in all **NATRAJ** products.
- Do not use harsh cleaning agents containing abrasives and acids, instead use a soft sponge or wet cloth with soapy water / diluted vinegar to protect the chrome finish.
- To protect the fine finish of fittings from dirt stains and other damages, cover them with cloth / polypack after their installation till they come into actual use.
- Please buy **NATRAJ** products from company's authorised dealers only to ensure genuine quality material.
- Insist on genuine spares from company's local service centre or its authorised stockist in case of any repair or replacement.
- Strictly follow the instructions manual whenever provided for individual items in their packing boxes for their correct installation & maintenance.
- Look for **NATRAJ** seal on all **NATRAJ** products.

TERMS & CONDITIONS APPLY

1. Prices are Per Piece only.
2. Company will not be responsible for damage during transit.
3. All orders will be accepted against advance payment 30% of total amount and balance before Delivery.
4. 10% Extra Amount will be deducted on returned Goods.
5. All claims and disputes are subject to Delhi Jurisdiction only.
