About Us

Getrus International is a customer-oriented company with rich knowledge of its products market, customers requirements, and excellent trade policies. We began our operations after analyzing the markets and with the goal to perfectly meet the high demands for several industrial products. We offer Centrifuge Machine, Air Purification System, CO2 Incubator, Craft Suction Pump, IVF Workstation, Petri Dish Warmer, Stage Warming Plate, Return Air Module, Dry Incubators, Anti Vibration Table, and many other products. In order to offer the vast range of industrial machines, tools, and equipment, we work with utmost honesty and handle job profiles as a manufacturer, trader, importer, and exporter. We provide all the products of our company with assurance regarding the supreme quality. We have been able to give this confidence and assurance due to our strict quality control measures and checks.

Our company also provides installation and calibrations of the offered self manufactured products. These services are rendered by our trained staff, ensuring complete quality and client satisfaction.
