About Us

At Deep Enterprises, we take pride in our dependable solutions that satisfy the requirements of contemporary industrial and business framework. We focus on providing products that are durable, efficient and built to give our clients exact solutions to ensure projects are completed on time and organized. We are driven by quality, innovation, and customer-centric thinking, delivering solutions for a diverse customer base to cater to their evolving industry requirements. We offer a variety of products such as perforated cable tray, stainless steel cable tray, horizontal cable tray bend, cable tray fittings, GI earthing strip and mezzanine floor systems. The offerings are for a wide range of applications in various industrial, commercial and infrastructure sectors.

The high fabrication techniques and quality materials provide corrosion resistance, strength, reliable conductivity and endurance in harsh operating environments. The flexibility and customizability of the configurations also give clients the opportunity to select what is most suitable for their project, ensuring to maximise space and efficiency.
