About Us

Established in 2017, Safkon Enterprises is a Delhi based trader, supplier and wholesaler committed to delivering advanced security, surveillance and automation solutions for diverse commercial, industrial, educational and residential requirements. With a customer focused approach and a strong understanding of evolving security demands, we provide dependable products that enhance safety, operational efficiency and access management across various sectors. Our comprehensive product portfolio includes Fingerprint Attendance Machine, IP Cameras, Access Control Solutions, Door Frame Metal Detectors, Public Address Systems, Turnstile Entrance Control, and several other integrated security solutions. Every product is carefully sourced to meet quality expectations, technological advancements and long term performance standards.

We believe that every organisation requires customised security infrastructure rather than a one size fits all solution. Therefore, our experienced team works closely with clients to understand their specific operational needs and recommend suitable products that deliver practical value and reliable functionality. From consultation and product selection to timely supply and after sales assistance, we strive to ensure a seamless customer experience. Our commitment to quality, transparent business practices, prompt service and customer satisfaction has enabled us to build lasting relationships with clients across different industries. By continuously expanding our product offerings and embracing innovative technologies, we remain dedicated to helping organisations create safer, smarter and more secure environments.
