## About Us

**Gandhi Scientific Co.** is a leading **Manufacturer, Supplier** and **Trader** of high performance sealing solutions such as **Mechanical Seal, Water Pump Seal, Pump Parts**, etc. Based in **New Delhi** since **1963**, we are a close-knit team enthusiastic and passionate about providing our clients with the highest quality products to best meet their needs, whilst maintaining highly competitive rates as well as the highest level of client servicing.

We supply high quality sealing products in different profiles and standard material in a variety of size range. For clients, who require non-standard sizing or unusual profile, we also offer customization facility as we excel in rubber fabric custom solutions.

Our industry experience of over 50 years has strengthened and equipped us in very possible way to manufacturer and deliver heavy duty pump seals at competitive prices that always impress our client base. For our clients quality reassurance, we support all of our products with industry-leading production process using cutting edge equipment.

We take pride in ourselves for possessing exceptional level of technical knowledge that ensures that we manufacture and deliver the best quality product to meet clients needs at the right time. We also aim to support our customers in their purchasing decisions by offering them a variety to choose from and custom products for complex applications.

## Quality Assurance

We are committed to providing exceptional products and outstanding customer service. Our complete product range is developed and supplied within our Quality Management System (QMS). This ensures that we consistently deliver high quality products. All our raw material and other items are sourced from trusted suppliers who have been approved only after proper assessment of their quality credibility. During the in-house production process as well each step is closely monitored on an ongoing basis.
