About Us

We, Sampat Ceramics Pvt. Ltd., hold specialization in fabricating Porcelain Bushings and Insulators that are important components of Electro Static Precipitators, Transformers and Switchgears. When used in ESPs, the Porcelain Insulators play a significant role in controlling pollution. Operating since 1970, we are offering Industrial Insulators for meeting the requirements of cement, thermal power, sponge iron, and paper plants, etc. As a trusted manufacturer, exporter, trader and supplier, we abide by the industry guidelines and carry out all the business operations in sync with the industrial norms. The insulators designed by us are used in makes of ESP like M/s Andrew Yule, M/s Cethar Vessels, M/s Thermax, M/s ACC, M/s FL Smidth, M/s Soil & Envirocare, M/s BHEL, Ms/ Kisloskar, M/s Istom, M/s ETS-LEX, M/s VT Corp, and more.

We are a quality oriented company, offering a wide range of Porcelain Bushings and Insulators as per the industry specific requirements. Established in the year 1970 and based in West Bengal, we are known to be a leading manufacturer, exporter, trader and supplier of the domain. The comprehensive range of Porcelain Insulators for ESP offered by us encompasses DER Drive Insulator, Support Insulators, Suspension Insulators, Wall Through Bushings, Rapper Shaft Insulators, Bus Duct Insulators etc.
