About Us

With a strong history dating back to 1980s, Jackson Laboratories Pvt. Ltd. has made a name for itself among pharmaceutical and nutritional suppliers in India by offering a comprehensive range of products to clients with both national and international locations. We regularly sell Albendazole Tablets IP, Cell Plus Capsules, Ibuprofen And Paracetamol Suspension, Phenytoin Sodium Injection USP, Herbal Piles Cream, Eye Drop, Veterinary Injections, and many other pharma products. Our strict policies contribute to on-time delivery dates, friendly business dealings, and high-quality products that further place us among the top pharmaceutical companies in India. The company has a strong background in producing, distributing, and exporting pharmaceutical products such as tablets, capsules, injections, eye, ear, and nasal drops, dry powder, liquid oral suspensions, and liquid injections, among other things.

Jackson has a progressive and diligent strategy to utilize the best quality raw materials, chemicals, operative machinery, and skilled manpower to competently deliver pharmaceutical products to customers across the world. We are WHO-cGMP and ISO 9001-2015 certified company with a high standard quality control and quality assurance department that overlooks the manufacturing process with round-the-clock.
