

NEERMAN PUMPS

HAND OPERATED HYDRAULIC TEST PUMP

FEATURES:

- Portable and can be easily handled by one man.
- Pump unit is mounted on fabricated M.S. Pall which stores liquid for testing Provides self base for testing.
- Separate foundation is necessary for high pressure pump model.

APPLICATIONS:

- Boilers, Pressure vessels
- C.I. Mains, Casting, Gas cylinders, Pipe lines.
- Tubes, Pump and other Machinery parts subject to hydmulic pressure.

STANDARD ACCESSORIES:

- MS/SS check valve
- Brass pressure releass cock
- Pressure hose with attachments
- Pressure gauge

M.O.C :

Having M.S. body, C.I. Handle and Fulcrum with atenderd filing M.S. fabricated pall.

PERFORMANCE CHART

HAND OPERATED

Model	Discharge Size		Max Pressure		Plunger mm	Pall Size litr.
	BSP	mm	kg/cm ²	PSI		
1/2"	12.5	35	500	18	9	
3/8"	12.5	35	600	24	12	
1/4"	12.5	70	1000	24	22	
1/8"	12.5	106	1500	18	22	
1/16"	12.5	140	2000	18	22	
1/32"	12.5	211	3000	18	22	
1/64"	12.5	352	6000	15	22	
1/128"	12.5	500	7000	12	22	
1/256"	12.5	705	10000	12	22
