About Us

Industrial Online Services is a prominent exporter, trader, and supplier based in Bhavnagar, Gujarat, India. The company specializes in the distribution of high-performance industrial automation components, including the Allen-Bradley PowerFlex AC Drive, Lenze Drives Inverter, Mitsubishi Power Supply, Beckhoff EtherCAT Coupler, and various other industrial automation equipments. Established in 2023, the organization also operates as a wholesaler trader of human-machine interfaces. By directing all activities to cater to the expectations of customers, the firm provides excellent quality products while following moral business policies and crystal-pure transparency in all transactions to keep healthy relations.

The company maintains a sophisticated warehouse facility designed to store a vast inventory of electronic and automation hardware in a secure environment. This infrastructure allows Industrial Online Services to manage a complex trading network that spans across various industrial sectors. By utilizing advanced inventory management systems, the team ensures that all components remain in peak condition and are ready for immediate integration into client systems. The exporting range and supplying facilities at Industrial Online Services are structured to facilitate smooth logistics for both domestic and international markets. Through a well-connected distribution network, the firm ensures that critical automation parts reach their destination with professional efficiency. The success of the business is built on a foundation of reliability and a commitment to providing cost-effective solutions to global partners.
