Company Profile

Dear Sir,

We feel pleasure to introduce ourselves as a Manufacturer of Machinery Products and its Spares under a brand name of **"BHARTIYA"**. We are supplying these products and its spares to various reputed Automobile, Refrigeration and Fabrication industries in India and abroad.

We wish to inform you that we have some Qualities with us which are always beneficial to all the reputed companies like yours. We are supplying best Quality products as per the **EOM**.

If we are not wrong that your company brings/purchases most of the products through imports. we can give assurance to your company that if your company oblige us by giving a chance to supply, we assured cut down of your **COST OF PRODUCTION** by saving loss of time as well as foreign exchange.

We will be very much pleased if you kindly register us to supply you any of the listed products and its spares whenever required by you. We can submit our most competitive offer on receipt of your specific enquiry.

Nature of Business	Manufacturer, Supplier, Exporter
Year of Establishment	1984
Original Equipment Manufacturer	Yes
Standard Certifications	ISO 9001:2015

The name of some reputed companies to whom we are regularly supplying the products and its spares on their specific enquiries are as under:-

01. Ms Honda Cars India Ltd.
02. Ms TATA Motors Ltd.
03. M/s TATA Motors Ltd.
04. M/s Maruti Suzuki India Ltd.
05. M/s Ashok Leyland Limited.
06. M/s Caparo Maruti Limited
07. Ms Caparo Engineering India Limited
08. M/s Jai Bharat Maruti Ltd.
09. M/s SKH Metals Ltd.
10. M/s H-One India Pvt. Ltd.
11. M/s Rasandik Engineering Industries India Ltd. - Noida.
12. M/s Bestex MM India Pvt. Ltd.
13. M/s Bellsonica Auto Component (1) Pvt. Ltd.
14. M/s Veegee Kaushiko Engineering Pvt. Ltd.
15. M/s Victora Auto Pvt. Ltd.
16. M/s G-TEKT India Pvt. Ltd.
17. M/s Haryana Industries.

Kindly feel free to write/contact us for more information about our products and your enquiries.

Regards,

For INDIAN INSTRUMENTS
(O.P. Verma)

ROBOT DRESSING CUTTER / BLADE

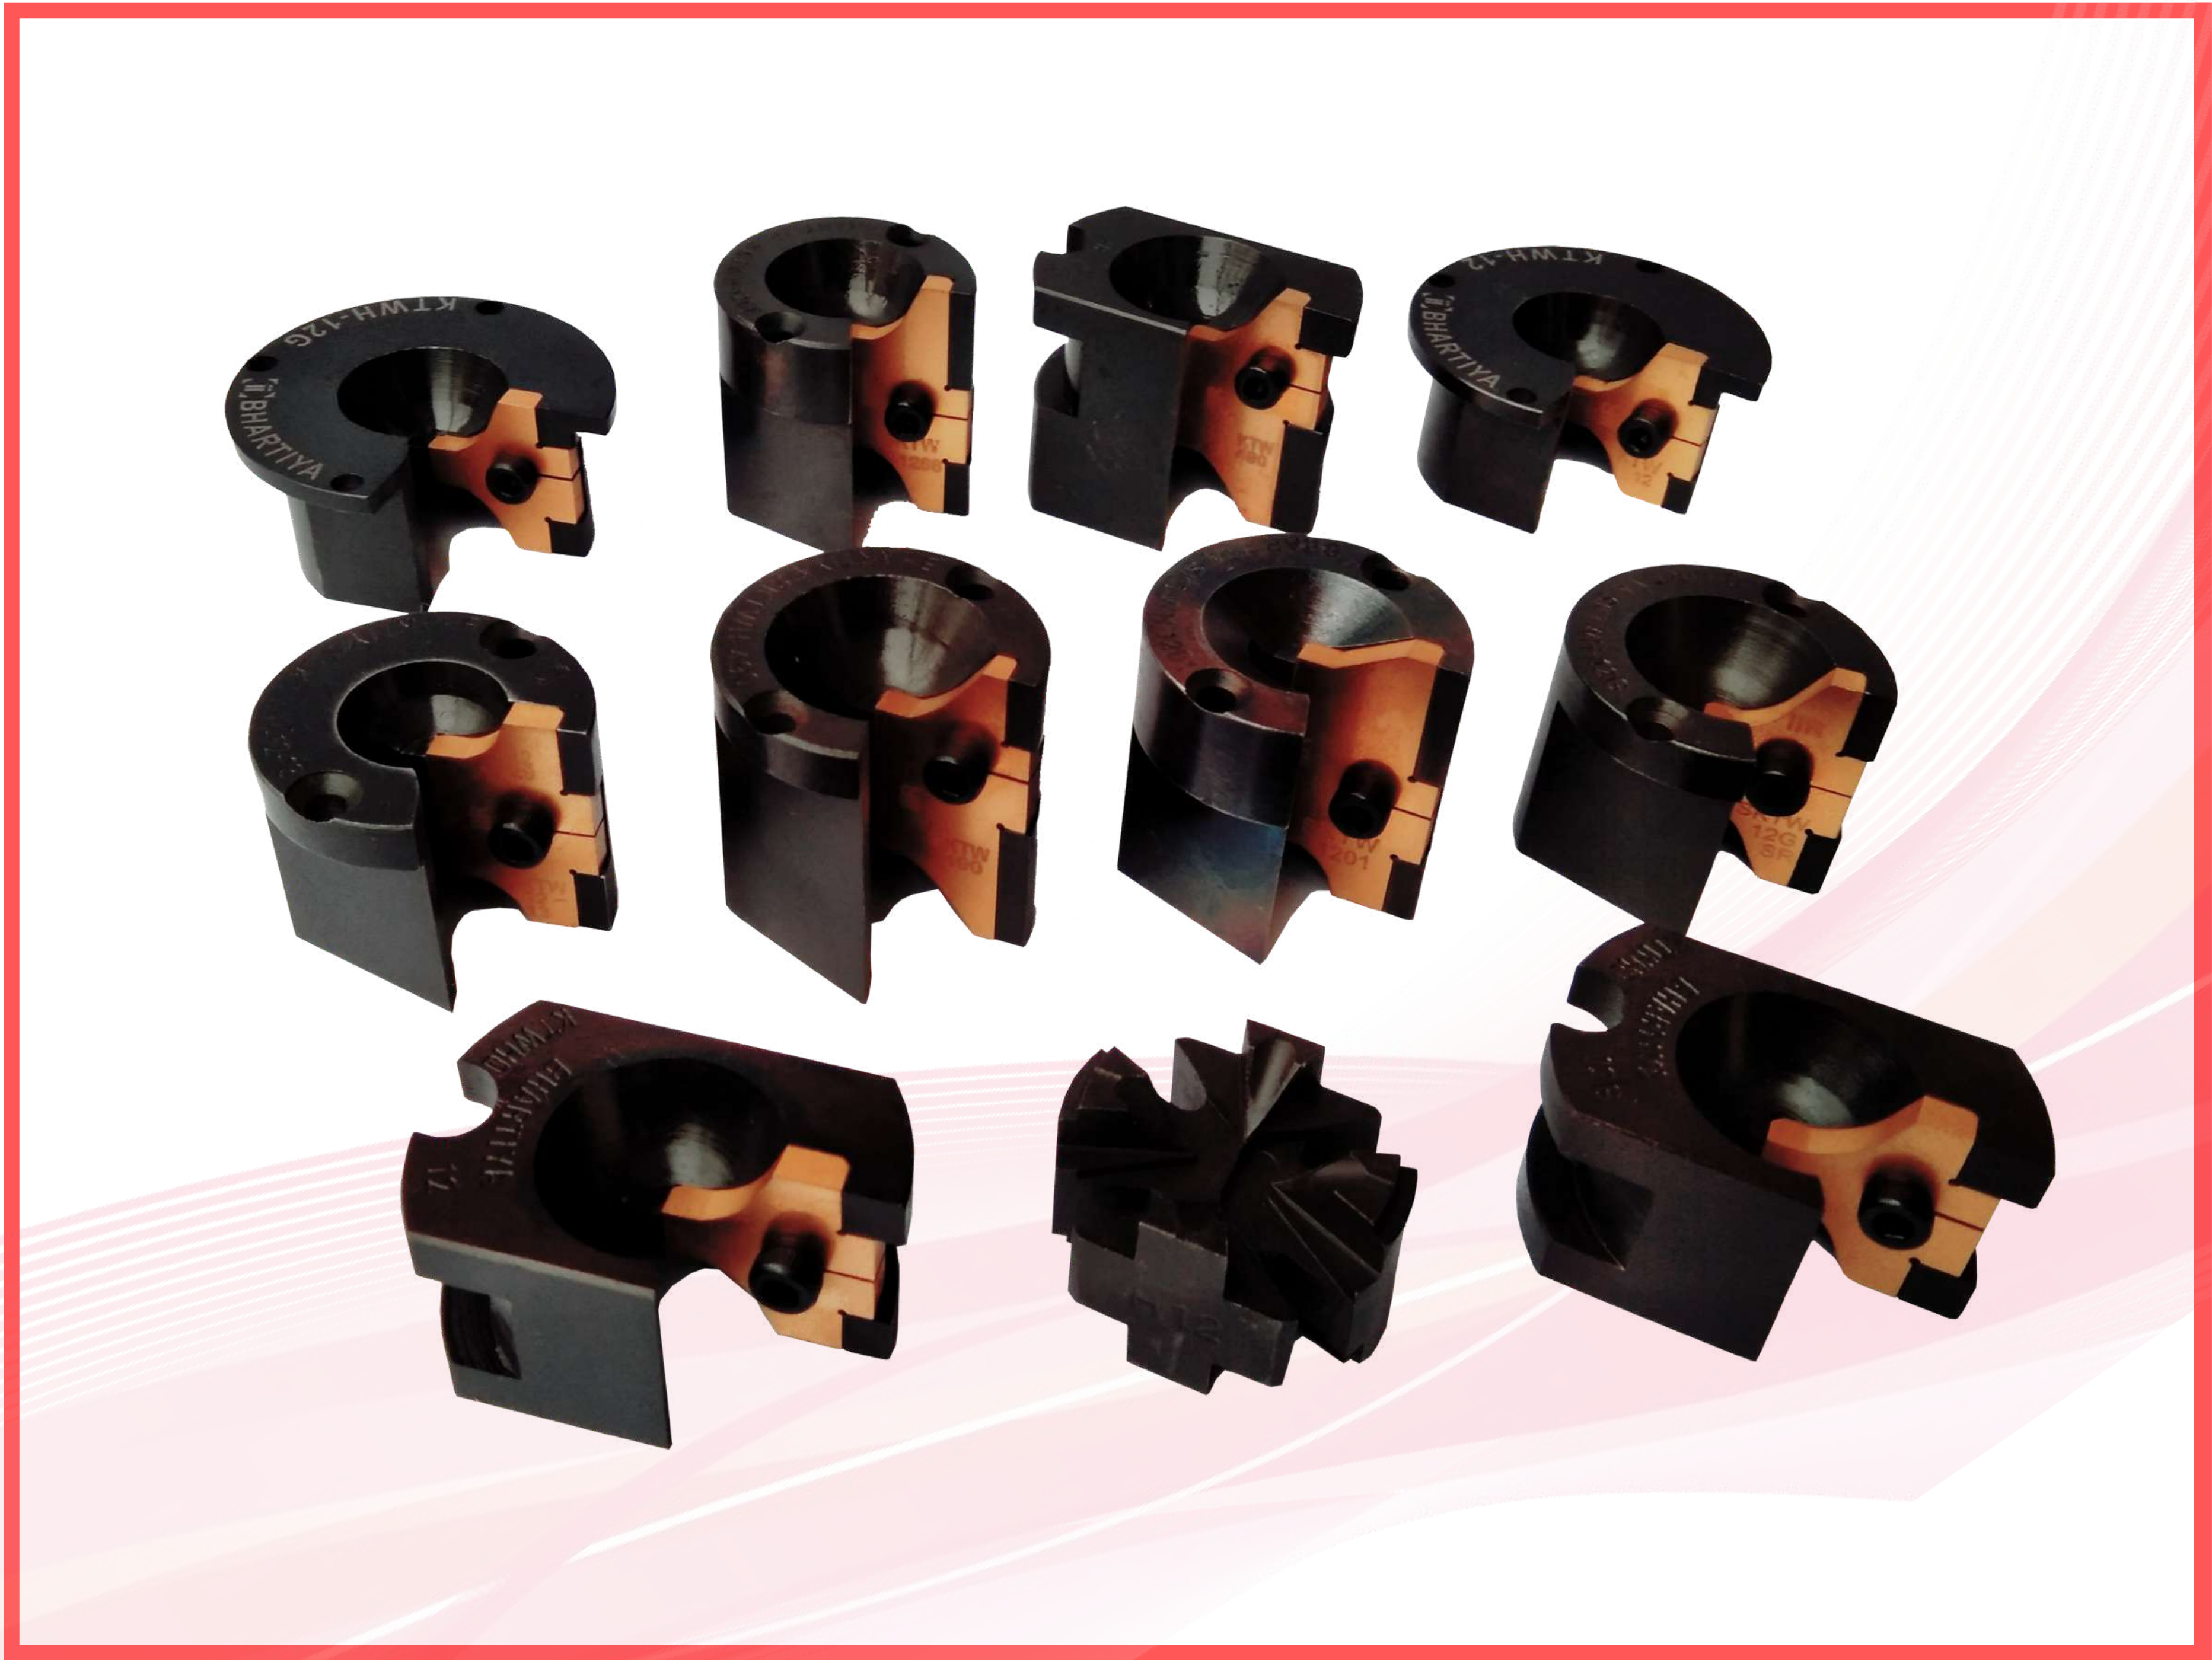

Features:

- Accurate Spot Area with Sharpen, Smooth finish.
- Variety of Cutter Blades for various Cap Tip Shapes.
- Designed for 13D / 6D Cap Tip Drawings.
- Scope always available to meet customer's requirement..
- Dressing time of each cutter approximately 8,000-10,000 Sec.
- Special requirement or any development, feel free to contact.

OUR FEW REGULAR MODEL SERIES:-

- | | |
|----------|-------------------|
| • KTW | • GD - 16 |
| • KTL | • GD - 13 |
| • KTW(U) | • MTD - 16D / 13D |
| • AC4 | |

ROBOT/ MANNUAL DRESSING CUTTER HOLDERS

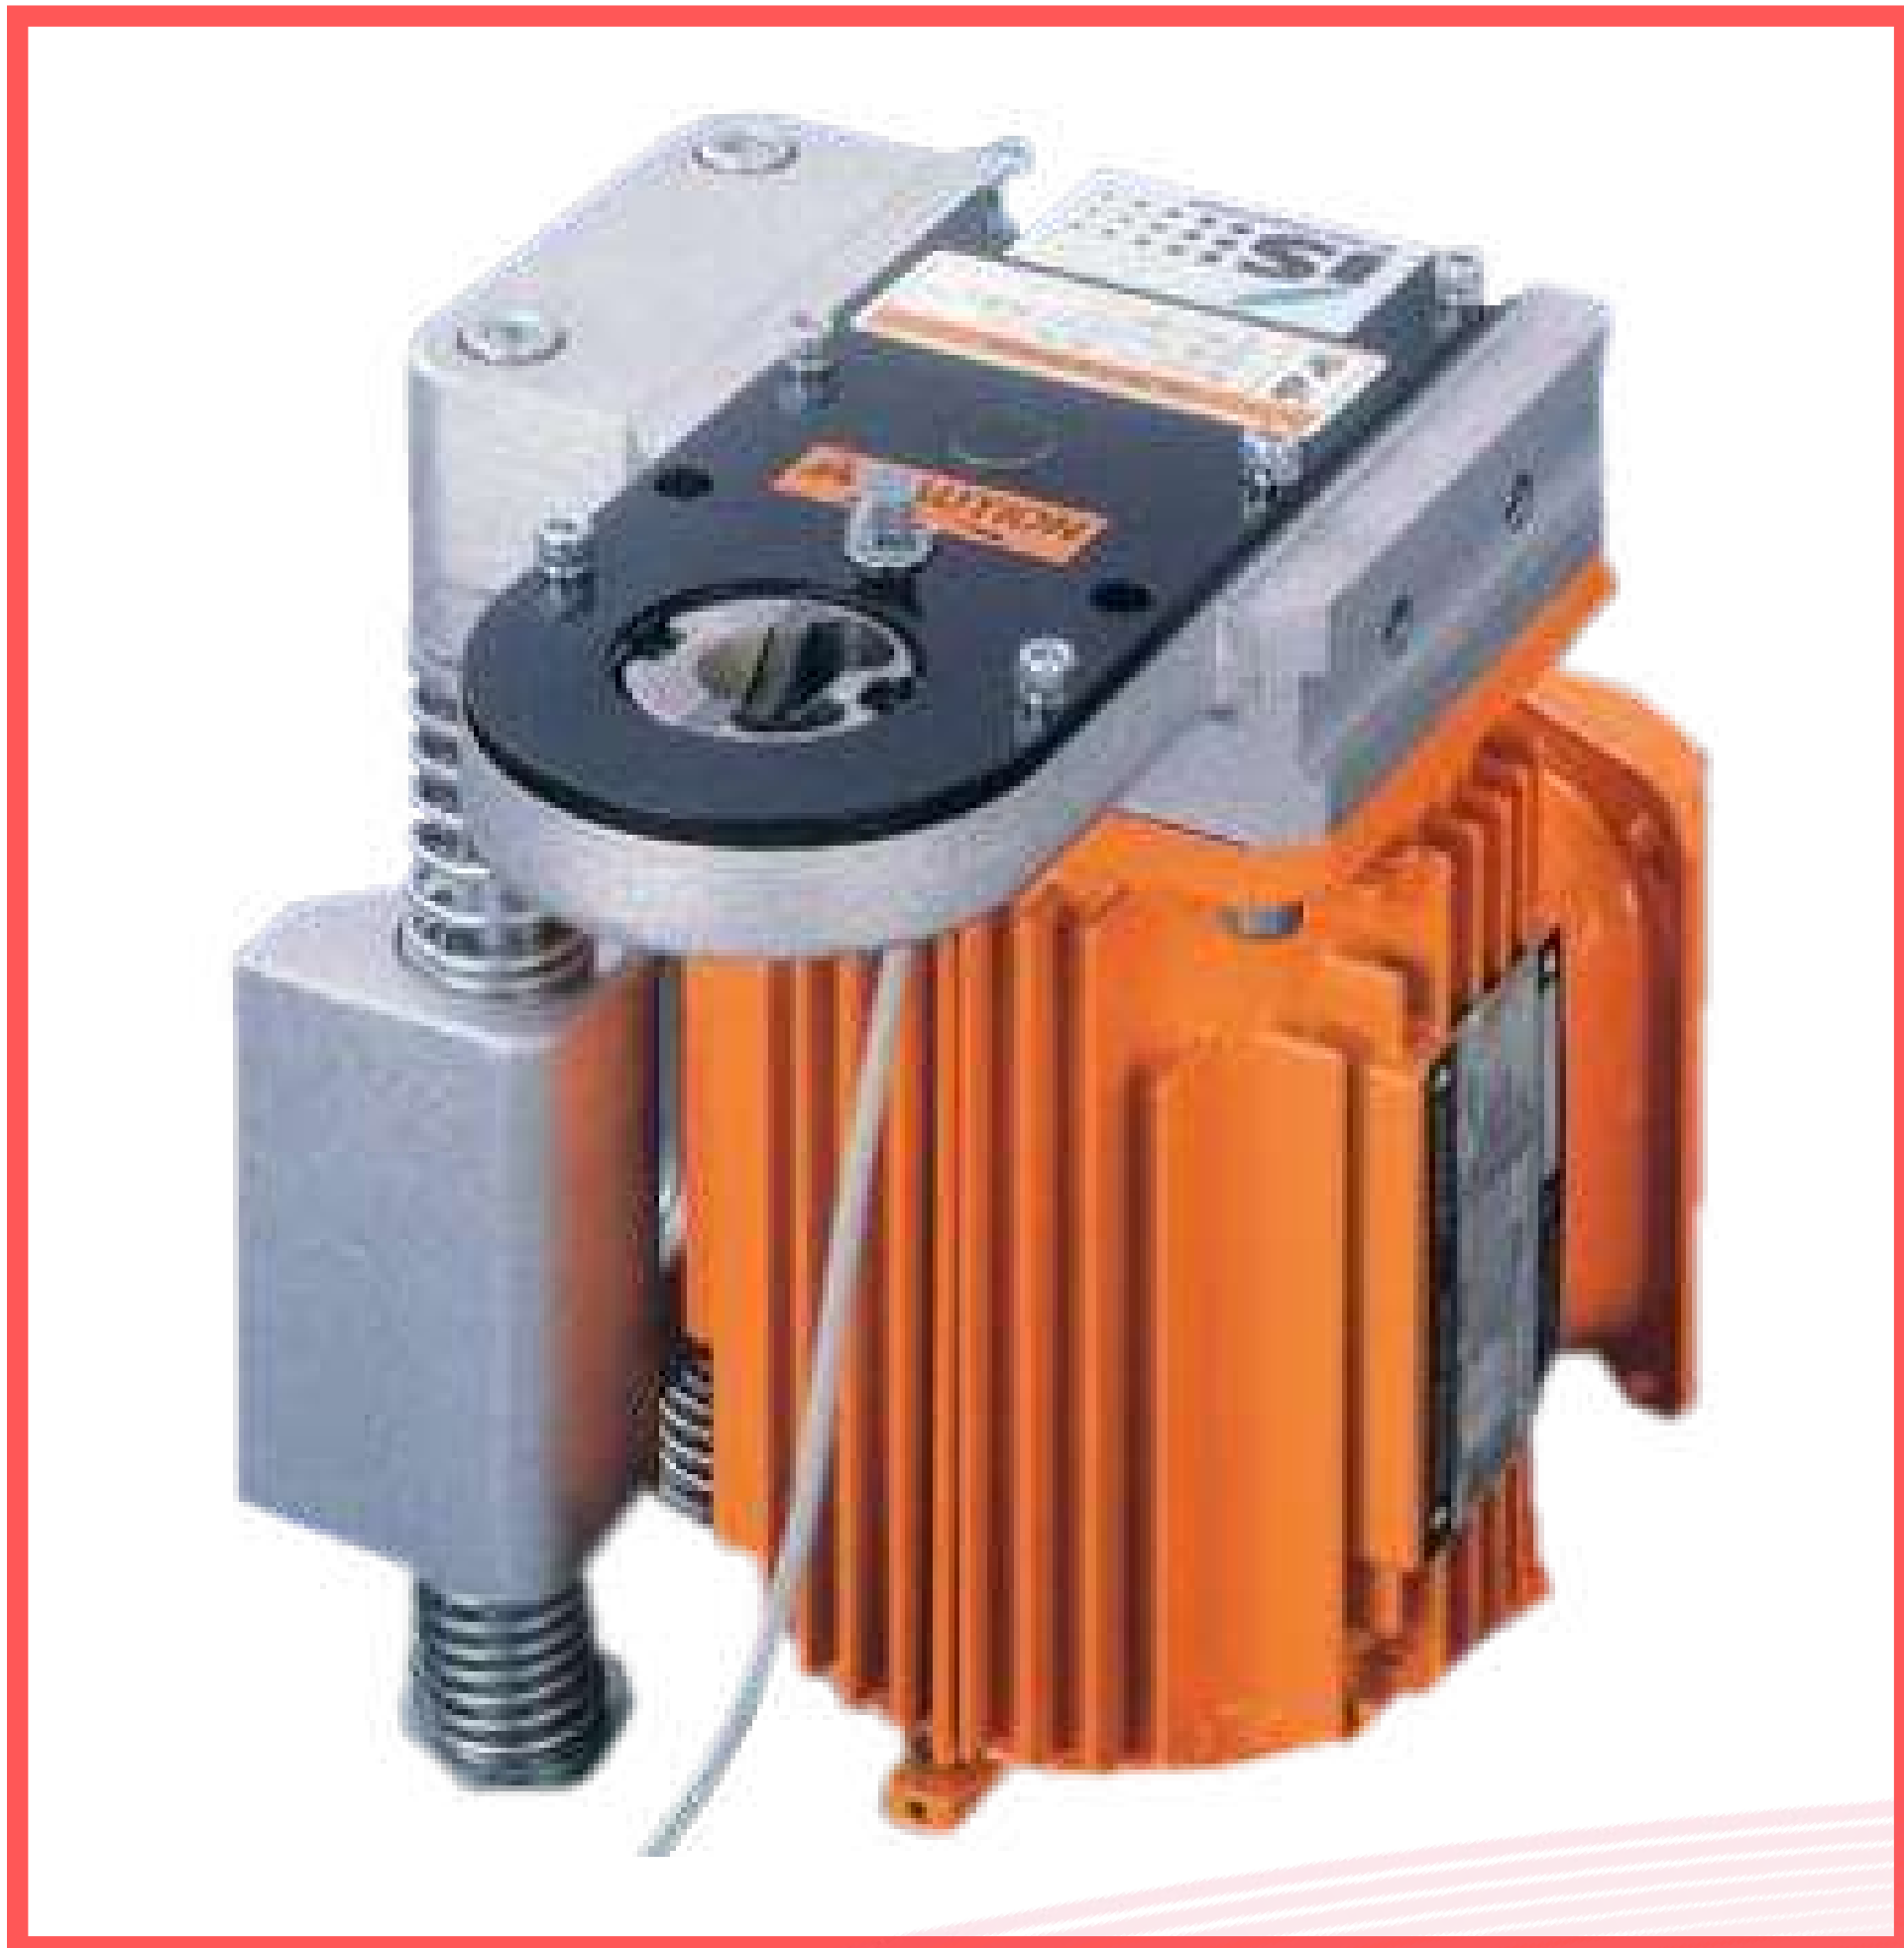

Features:

- Designed for Variety of Cap Tip Shapes.
- Available in Various sizes and designs.
- Designed for Dual sided sharpeners/ shapers.
- Maintain proper Tip Dressing in order to save time, consistency and quality.
- Durable and consistent approximately for 18000-20000 Sec. of Dressing time.
- Special requirement or any development, feel free to contact.

OUR FEW REGULAR MODEL SERIES:-

- | | |
|----------|-------------|
| • KTW H | • MTD - 16D |
| • KTW HO | • MTD - 16D |
| • KTW HL | • DJ-H 19D |

AUTO TIP DRESSER

Features:

- It is designed for spot welding robots.
- Available in various Models 16D,13D.
- Precise and accurate result.
- Electrically operated.
- Manufacture as per customer required make or design.

PNEUMATIC TIP DRESSER

Specification:

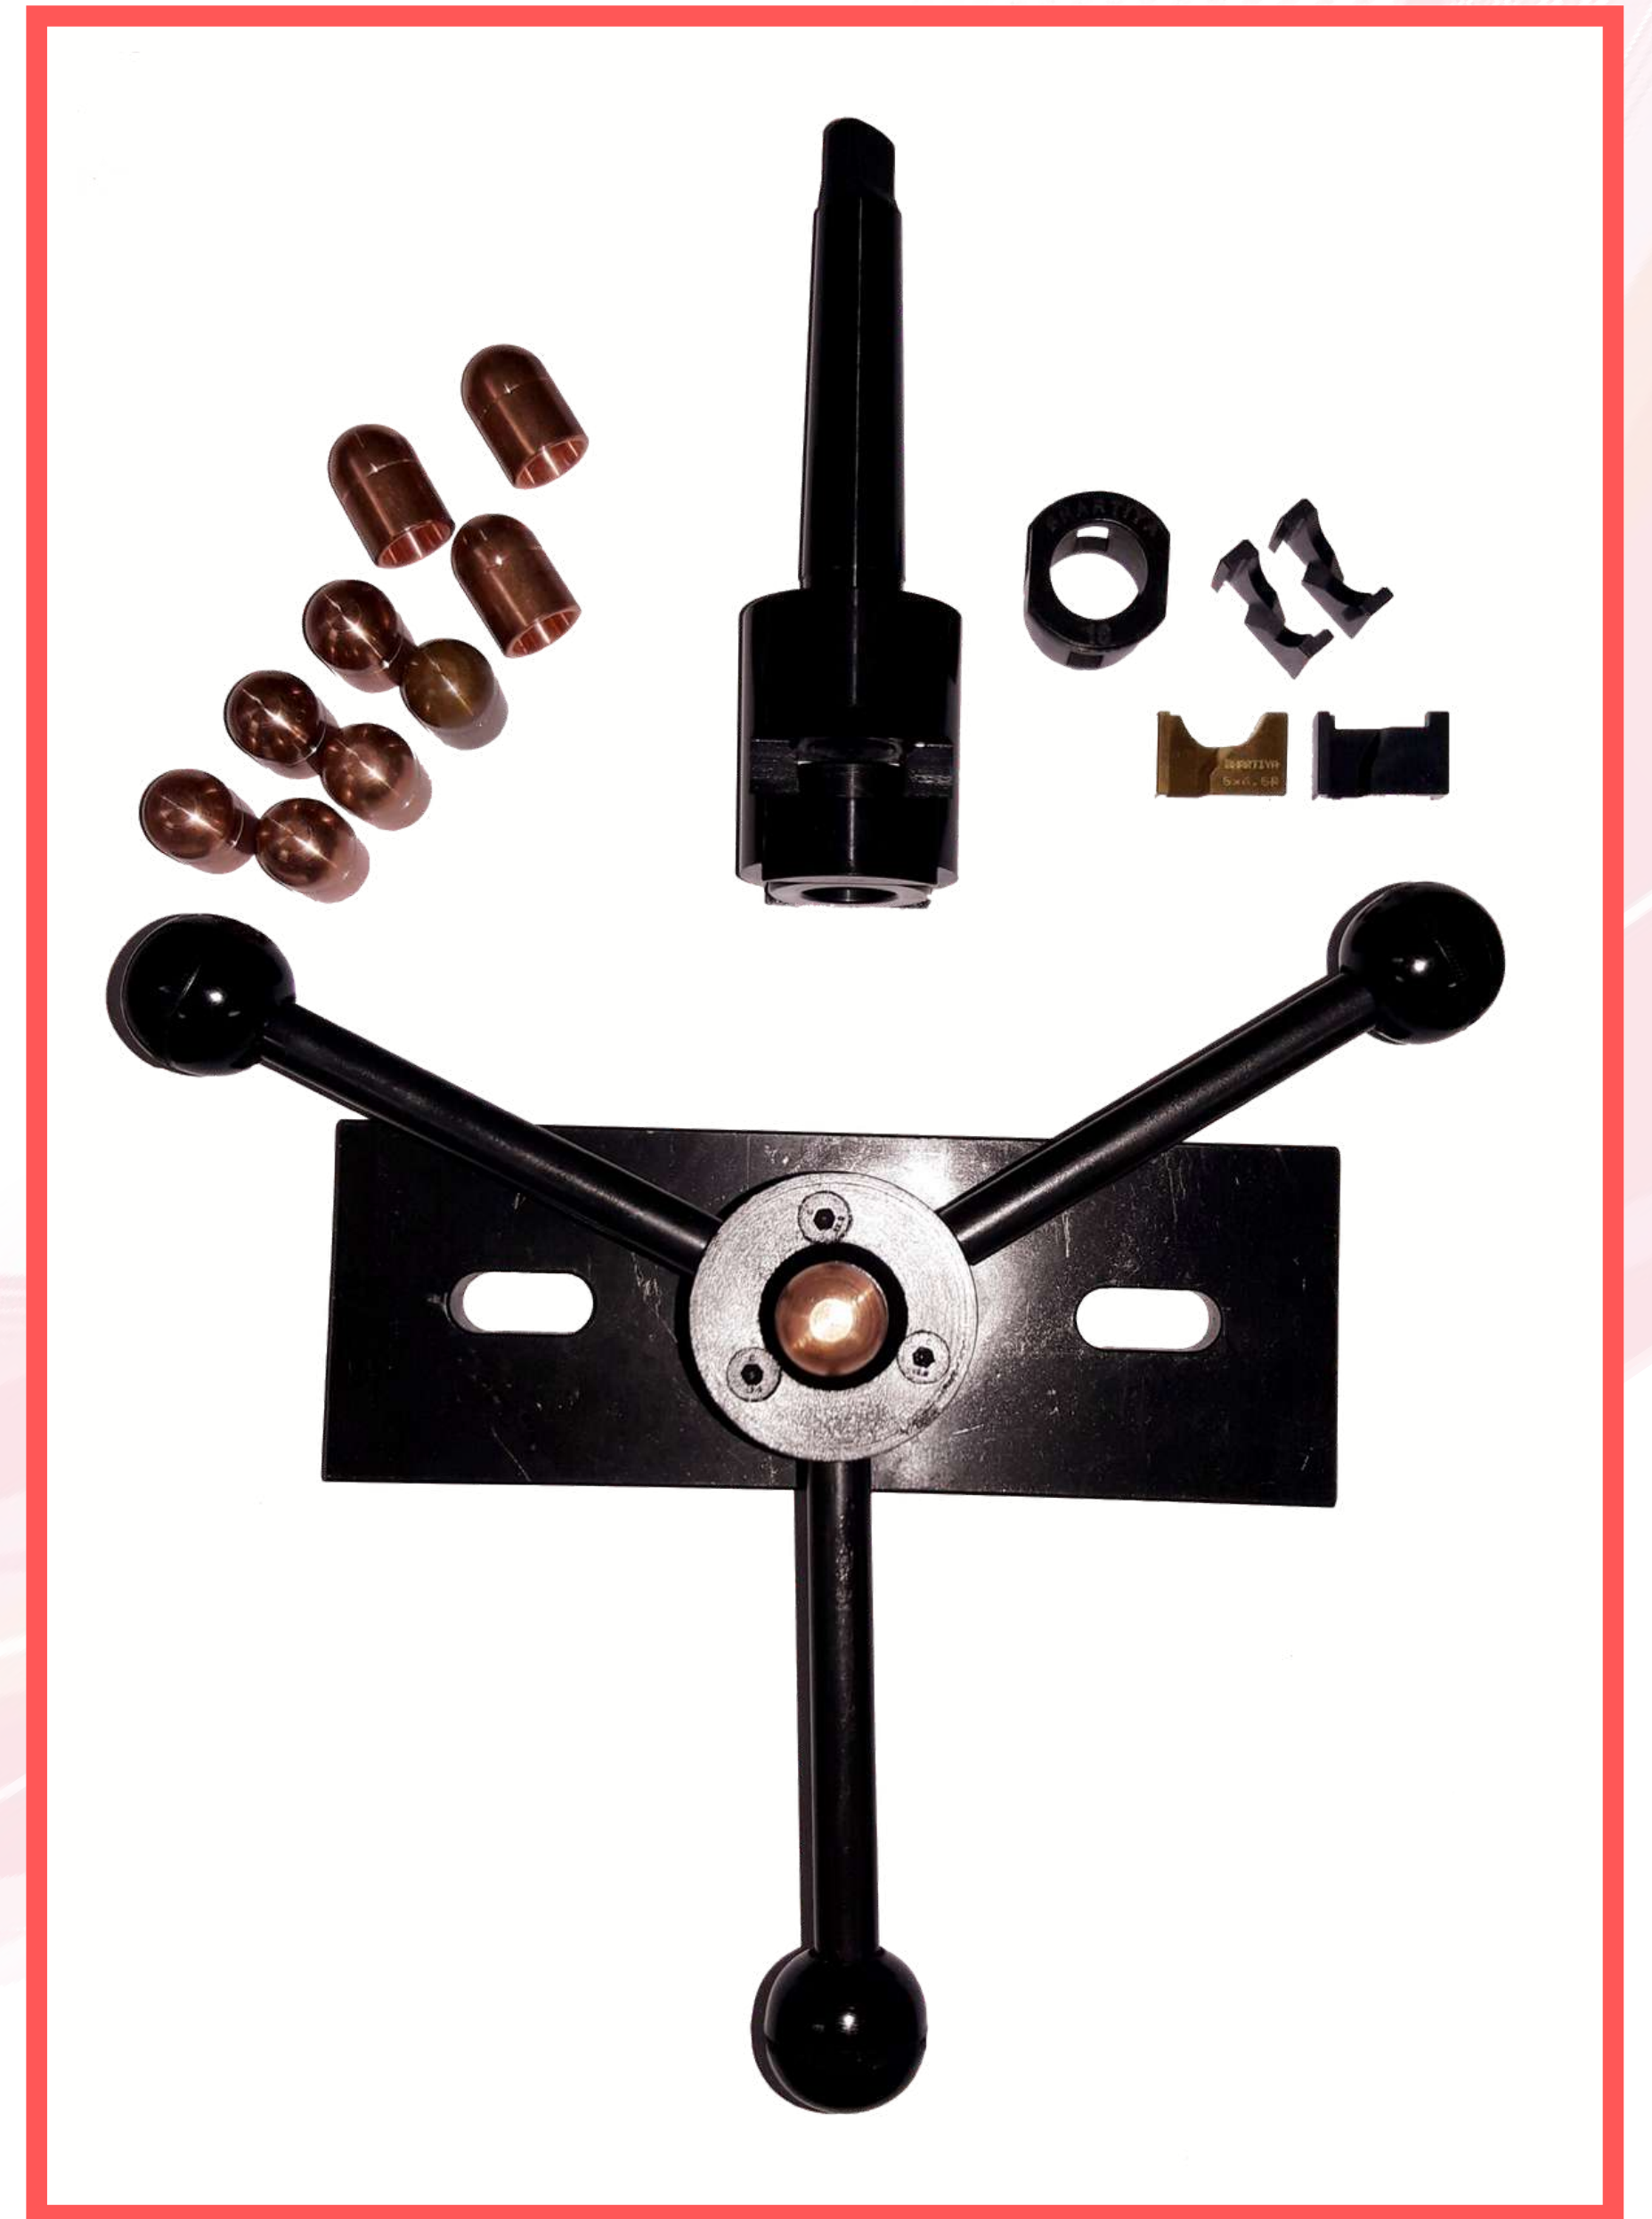

- MODEL - ETD- 18F.
- POWER - Compressed AIR.
- TIP DIAMETER - 8-18MM.
- REVOLUTION - 1300 rpr.
- WEIGHT - 1.65 kg.
- HOSE DIAMETER - 8MM.

Features:

- Small, Light and easy to handle.
- Quick and accurate work.
- Low air consumption.
- Easy to change cutter and cutter case.
- Cutter available for various cap tip sizes.

CENTRALISED / OFFLINE TIP DRESSER

Features:

- Designed to dress various sizes of cap tips.
- Help to reshape /Dress the used cap tips in to there original firmed shapes.
- Easy to operated by the semi -skilled operated.
- Its save time of dressings by providing accurate spot area.
- Available for conical / radius cap tip shapes.
- Help to reduce rejection of components by providing accurate spot after dressing.

Auto Tip Dresser Assembly

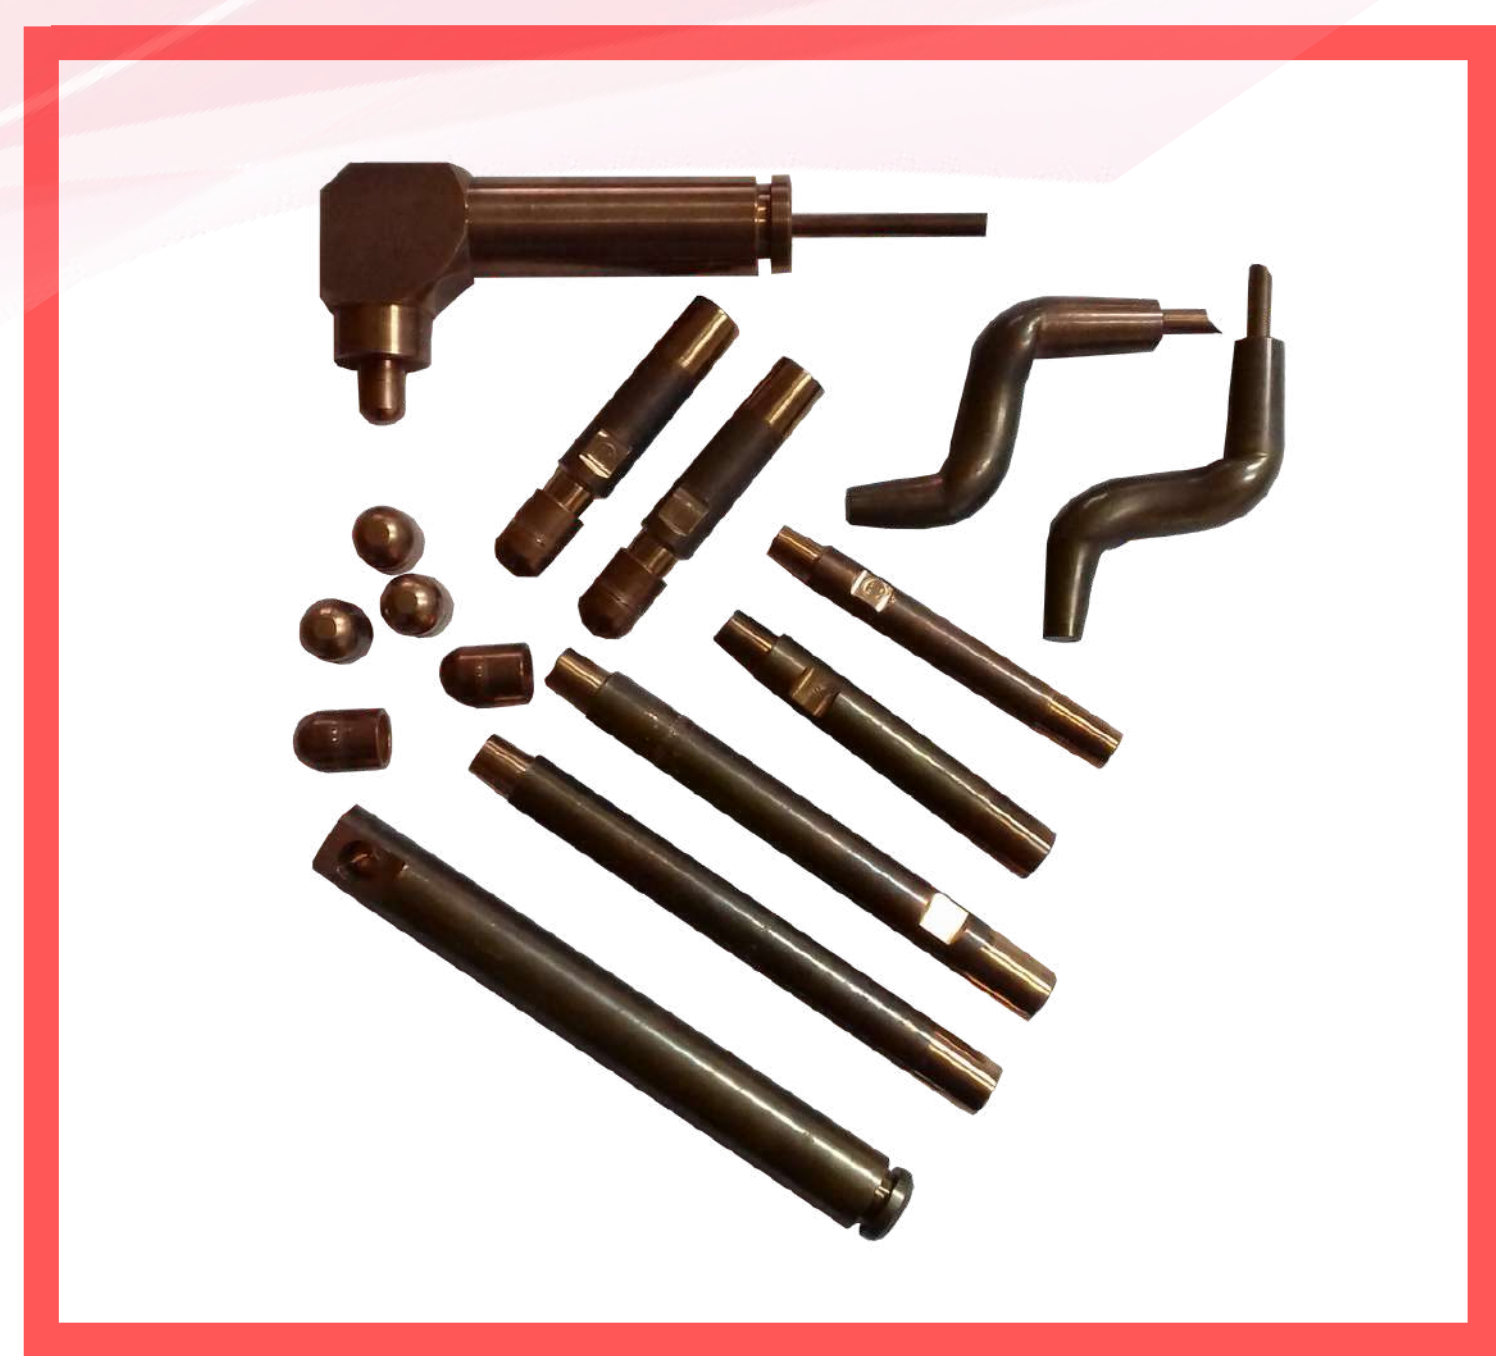

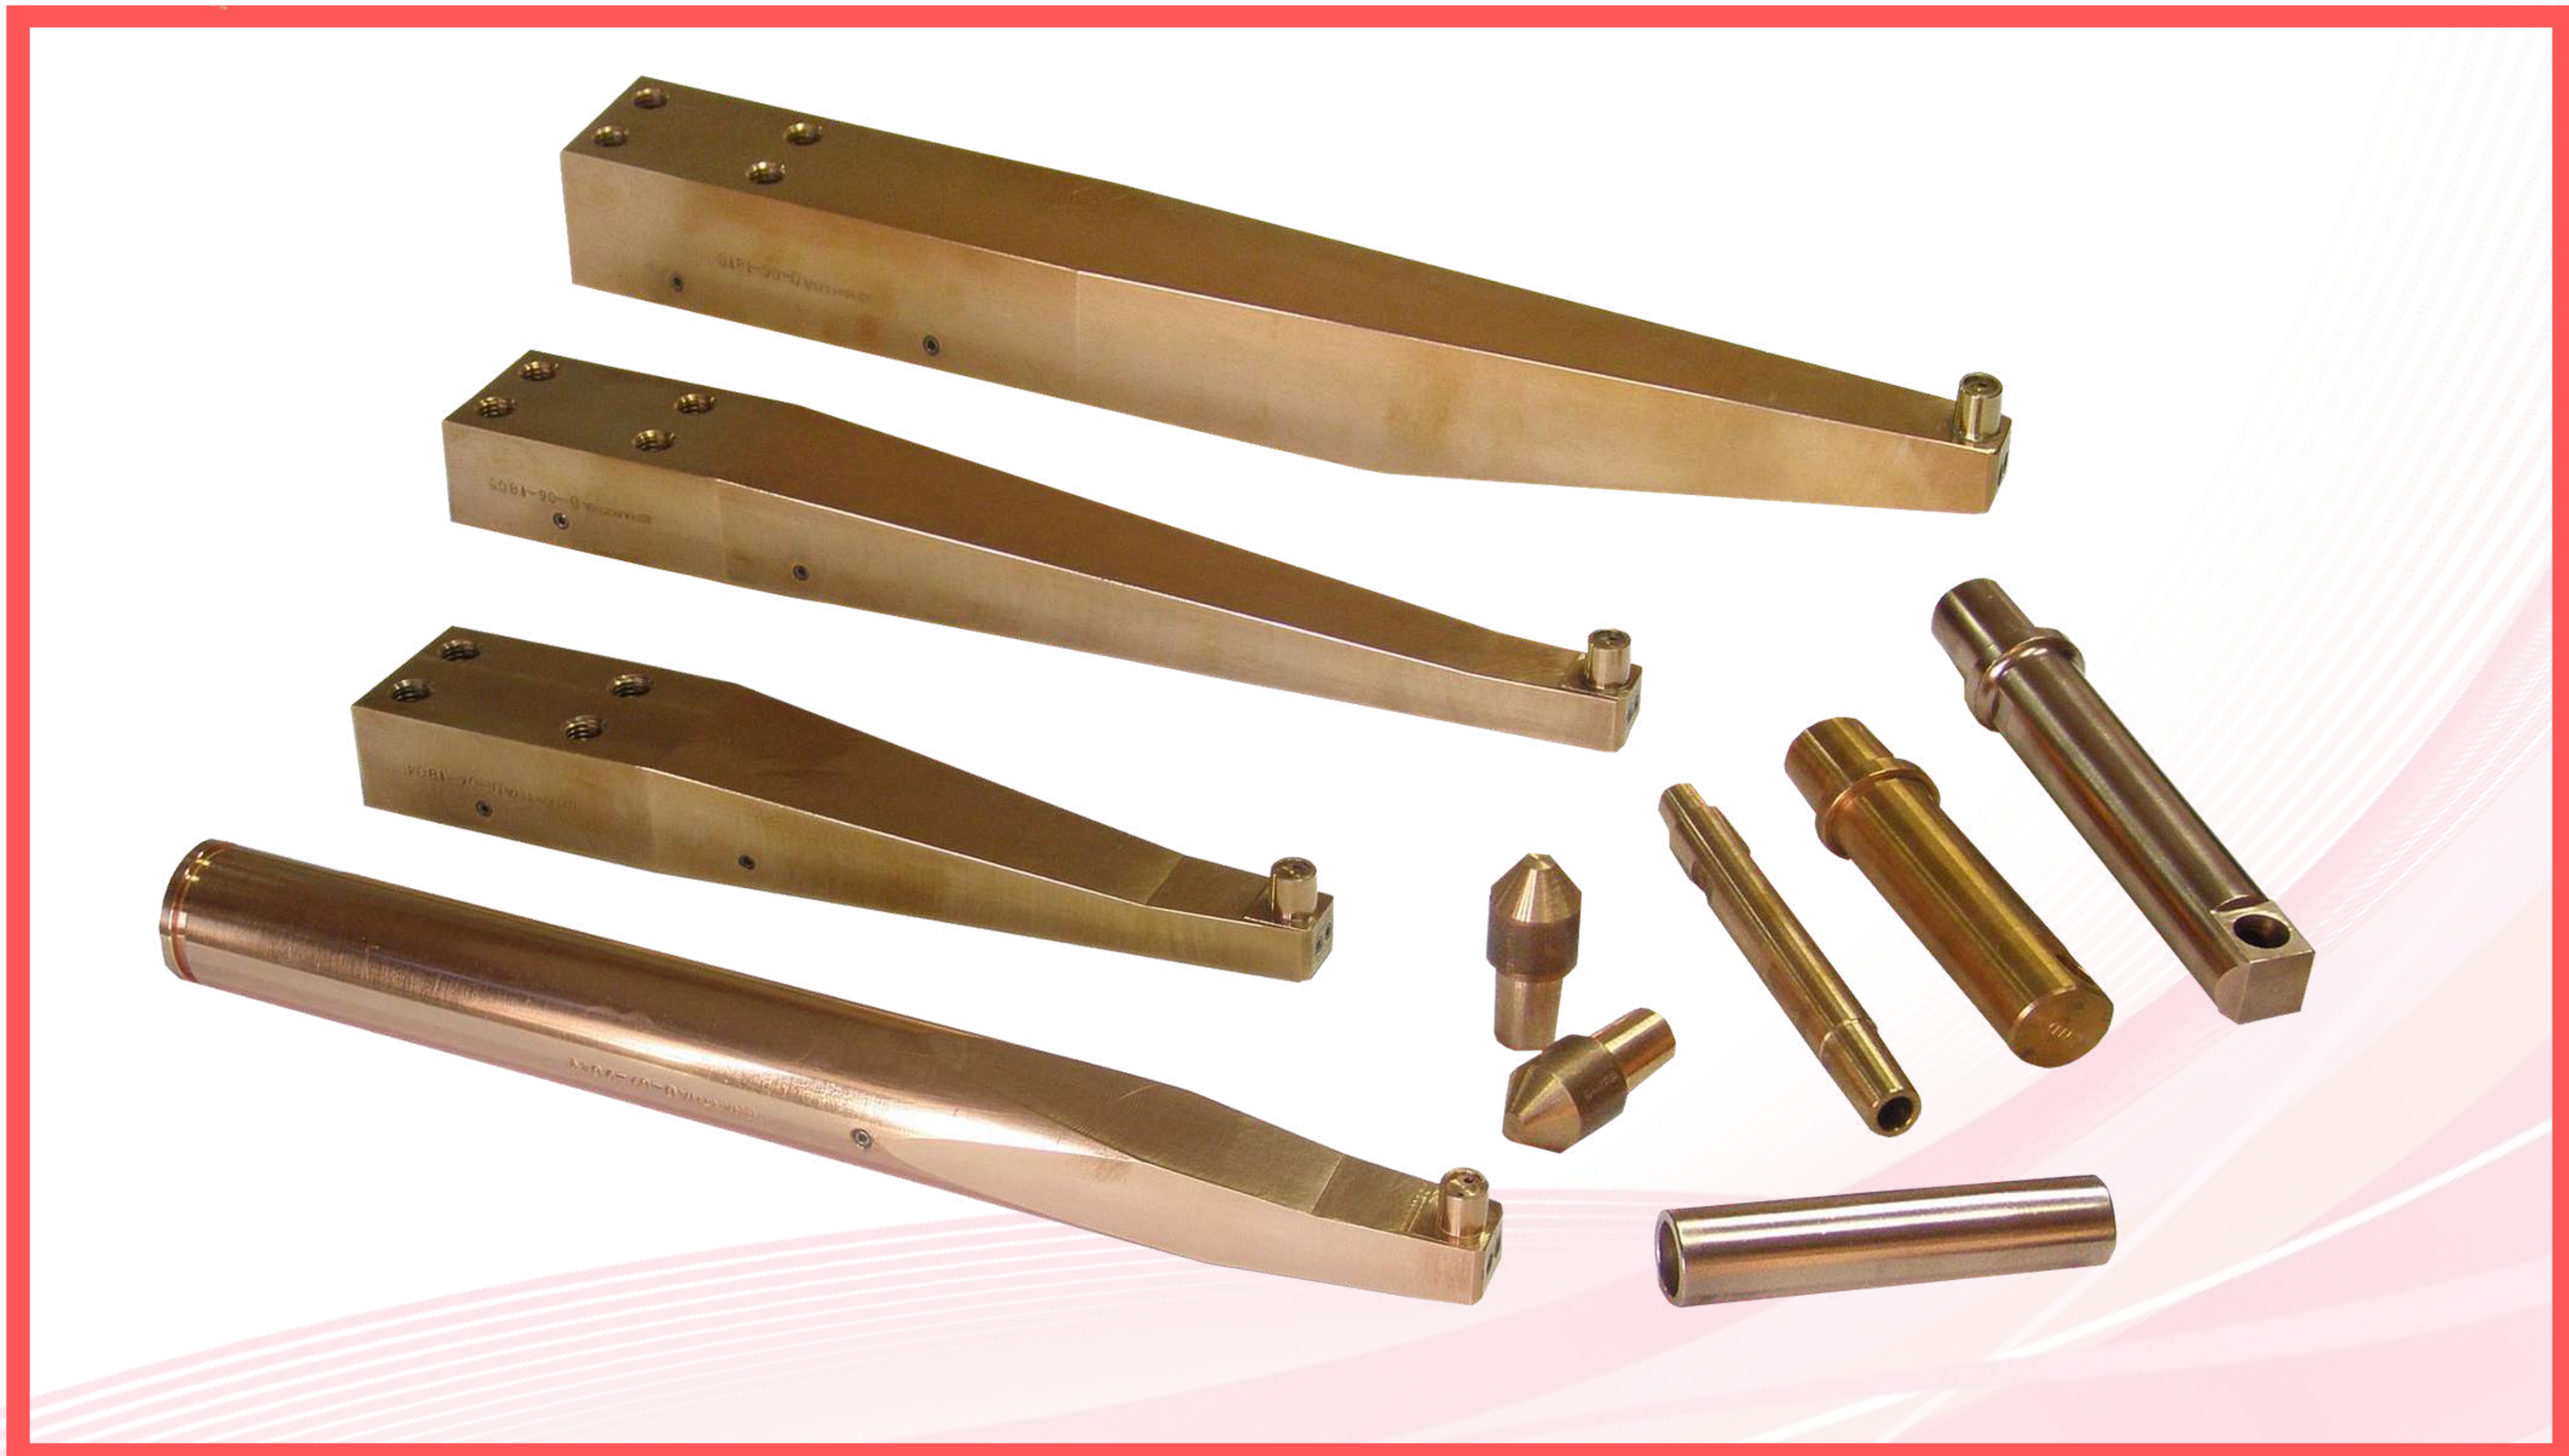

Specifications

- Top cover for Auto tip dresser For spot welding Robot.
- Complete Gear Box Assembly set (Set of 3 Gears).
- Cutter Holder for Spot Welding Robot Dresser 16D and 13D.
- Dressing Cutter for spot welding Robot 16D and 13D

Features

- Available in various size like 16D and 13D.
- Manufactured by skilled person.
- Perfect interchangeability.
- Exact Fitment.
- 100% import substitute with maximum cost reduction.
- Quantity as per OEM.

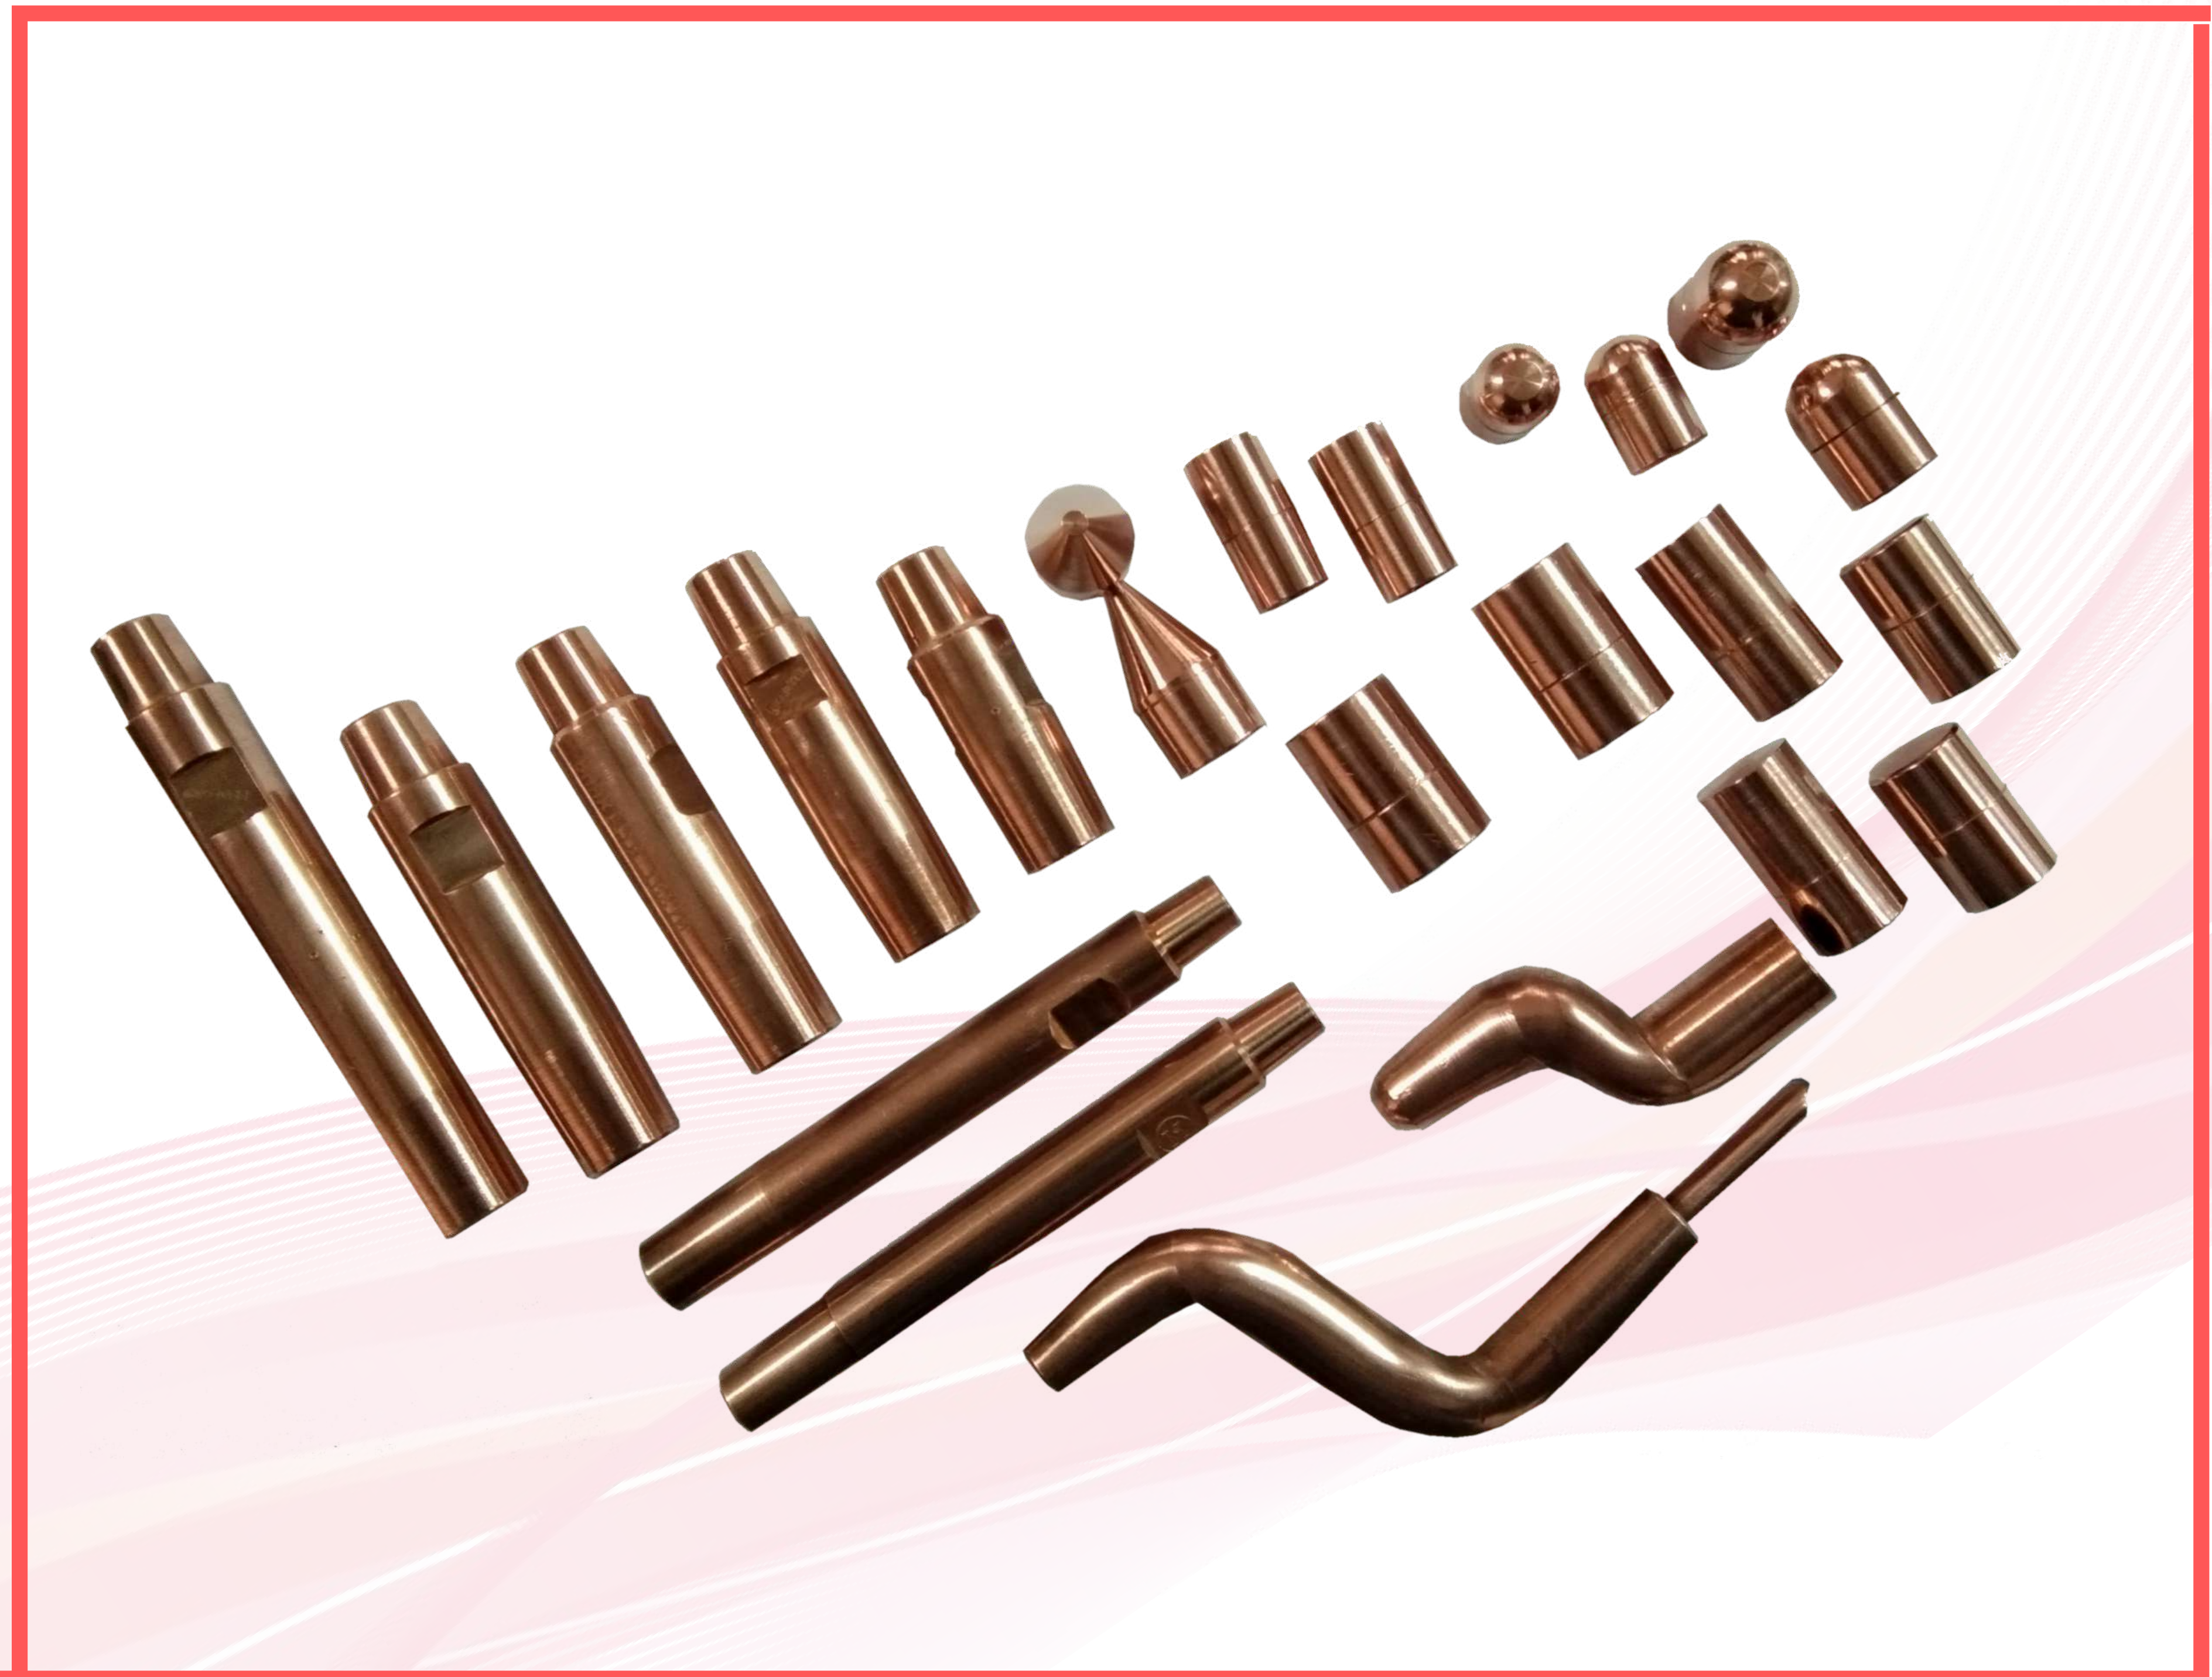

ROBOTIC SPOT WELDING SHANKS AND ADOPTERS

Features:

- Available Robotic Gun Arms for all type of Spot Welding Robots.
- Available in various Sizes in shapes.
- Equalent life span as per OEM Arms.
- Best Quality as per OEM.
- Perfect Interchangeability.
- Preciously Manufactured for exact fitment.

CAP TIPS AND SHANK

Feature:

- Shanks and Cap Tips are available in various sizes.
- Material used in Beryllium and Chromium Zirconium.
- Used in Robotic Spot Welding and manual spot welding.
- Sizes can be customized as per requirement.
- Longer life span due to graded base material.

Few Regular Models:

- CAP TIP 16*23(16D).
- CAP TIP 13*20(13D).
- F CAP TIPS For PROJECTION.
- Z Electrodes.
- Shanks SS-16 (110).
- Shanks SS-16(100)
- Conical CAP TIP With Face 3,4,5 & 6mm spot Area.

ROBOT SHUNTS/ CURRENT CARRIERS/ BUS BARS

Features:

- Flexible Shunts /Copper Current Carrier for spot Welding robots.
- Available for Various IT Guns.
- Full Range For Projection Welding Machines SSW, MSW etc.
- High Grade Copper sheets are used in shunts for longer life .
- High Experties / skills used for manufacturing current carrier exact fitment.

Few Regular Model Series (As per customer requirement):

- 303S100KS (As per OBARA)
- CB1 (As per DENYO)
- 39181, 30814, 39347 etc. (As per TECNA)
- Used in Spot Welding Robot Guns and IT Guns

CAP TIP OPENER/ RATCHET

Features:

- Designed for opening variety of Cap Tip Shapes.
- Easy to use, Light weighted and handy.
- Reduces Wastage of time while removing cap tips.
- Help to avoid accidents.
- Universal design to open from M-13D to M-22D.
- Protect wear and tear on Caps Tips.

KCF GUIDE PINS AND HOLDER

Features:

- Wide Range of KCF Guide Pins available in various models.
- Special Heat treated alloy with a hard insulated skin.
- A low cost pin with a reasonable lifespan.
- KCF Guide pin will be stable by air flow.
- Shape of Guide pin tip is tapered, it helps stable nut insert and holding.
- Projection nut welding Assly is combination of three given items:-
 01. KCF Guide Pin.
 02. Lower Electrode.
 03. Lower Electrode Holder.

CERAMIC GUIDE PINS ELECTRODE

Features:

- Extreme Hardness. High Thermal shock Resistance.
- Temperature Resistance.. High Tensile Strength.
- Available in Black, Gray & White.
- Available in Min M-4 to M-12 or Customize.
- Available in SS threaded base.

Specifications:

- Compressed Strength(MPa)... 2900
- Bending Strength(MPa)..800
- Elasticity(GPa).. 300
- Refractory (C)...1200

BOLT WELDING ELECTROD/ KCF INSULATION SLEEVE

Features:

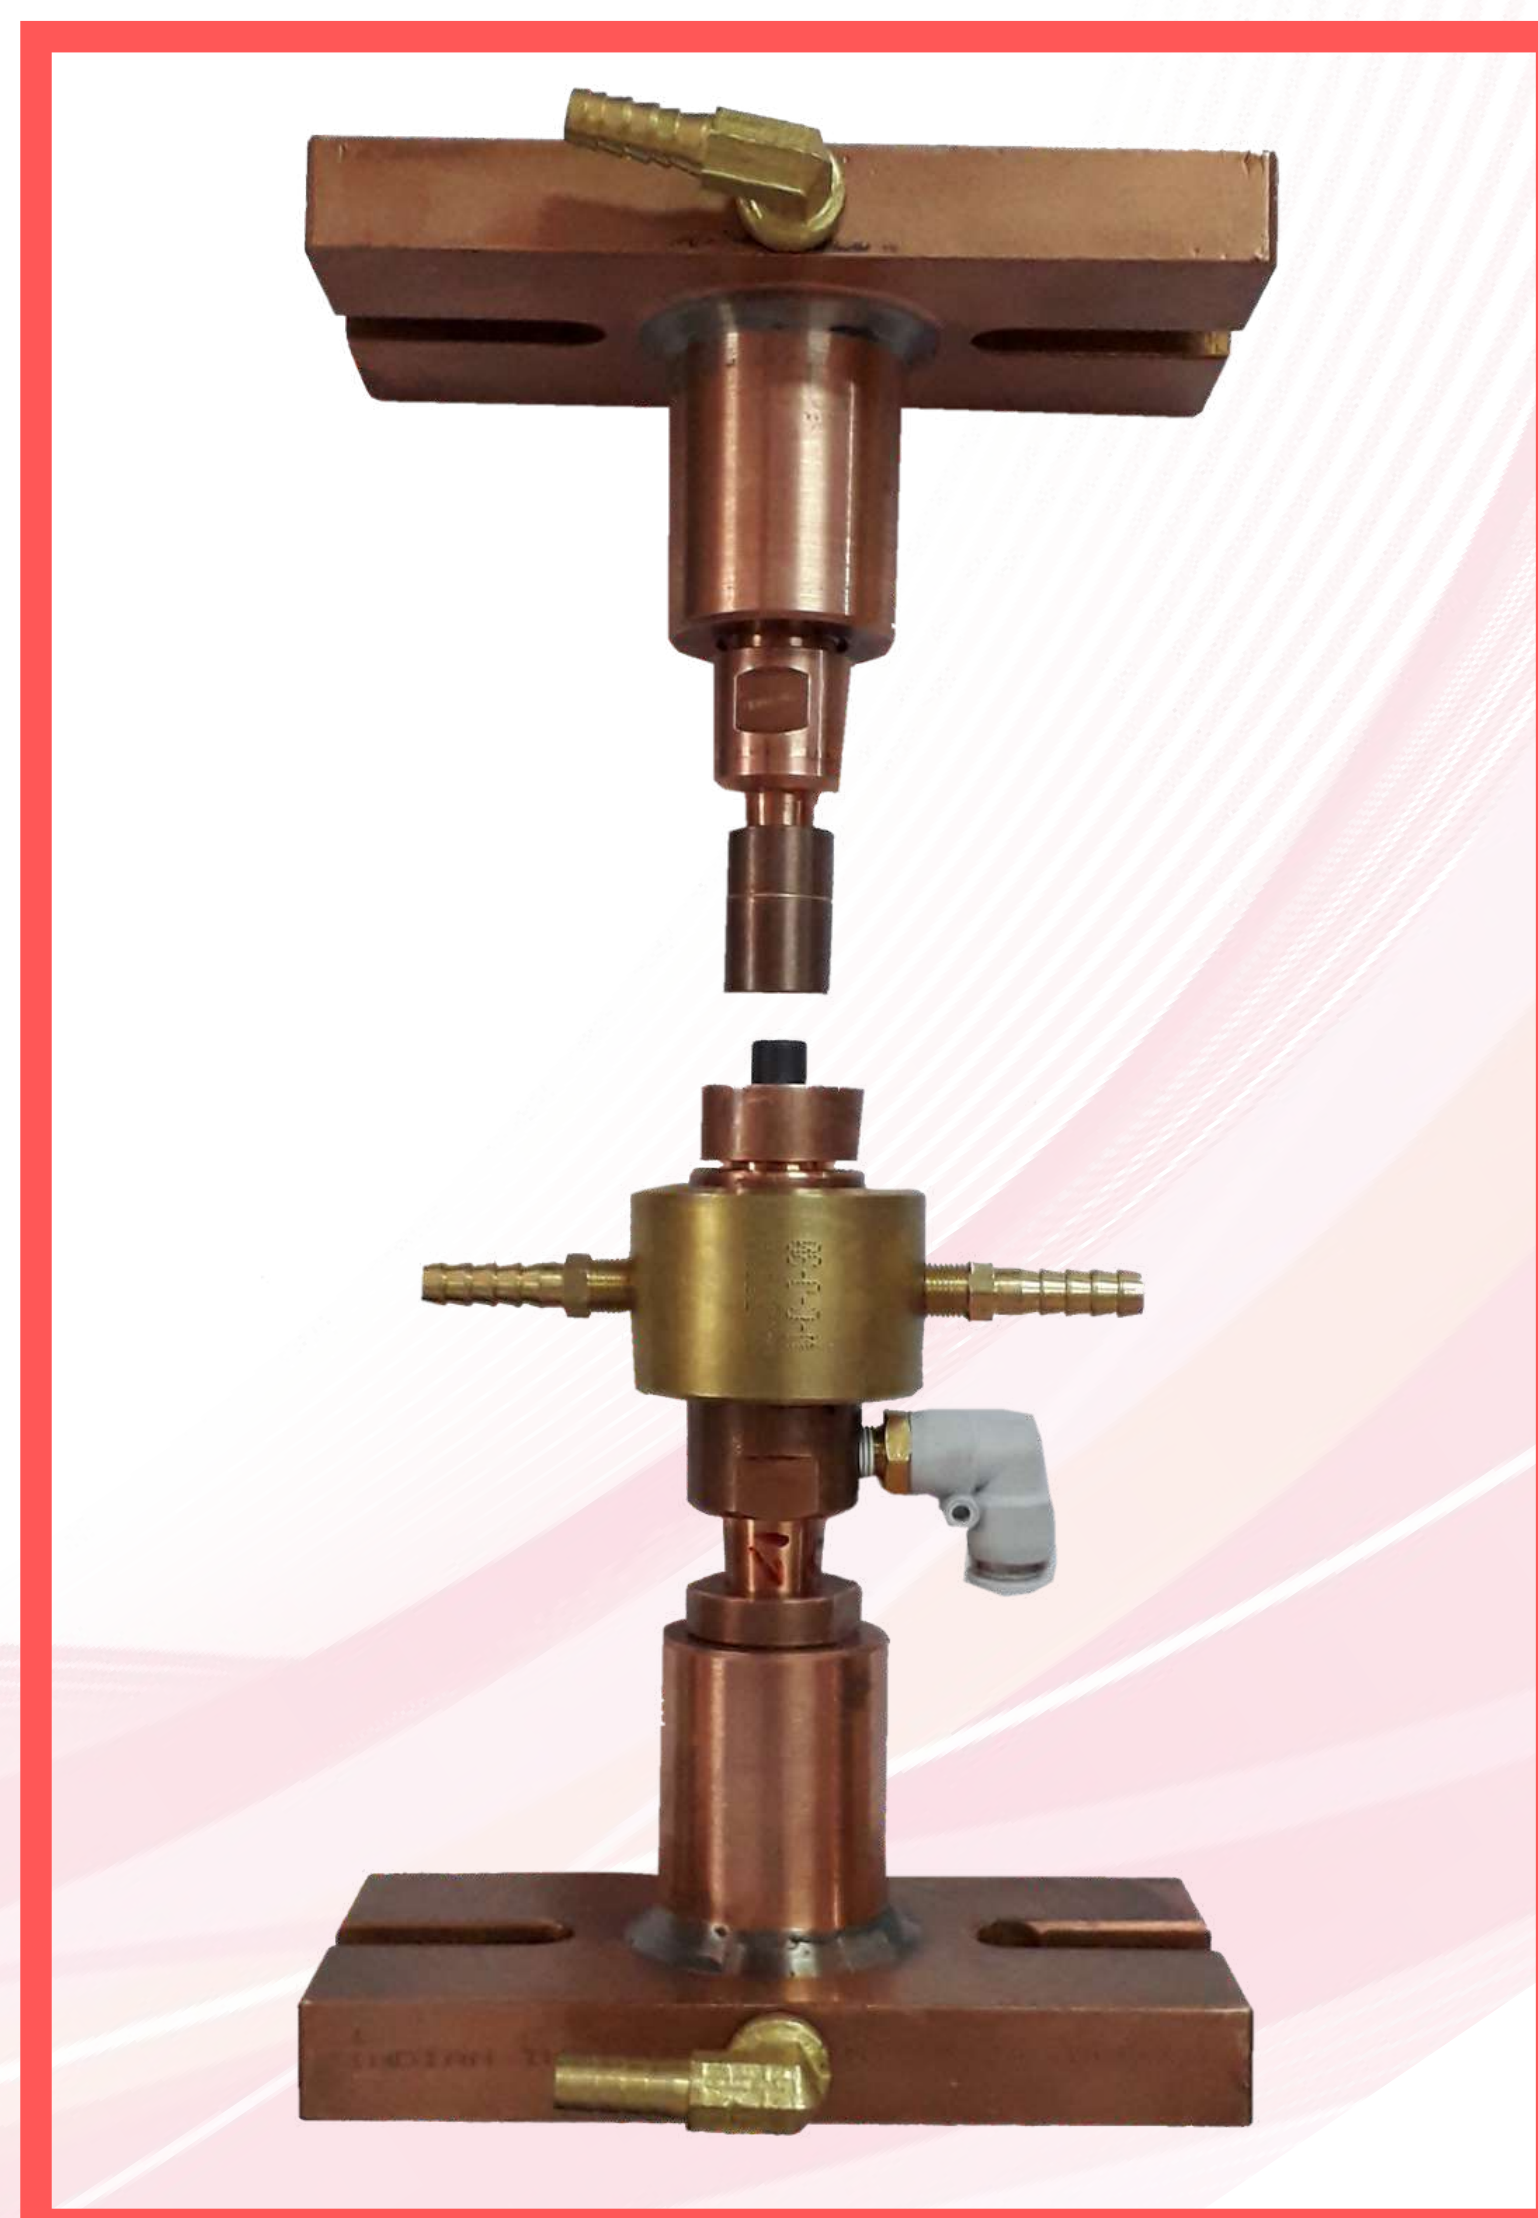

- Split type Electrode for Bolt Weld..
- Prevent Screw for breakage and damage.
- Available in Min. M-5 to M-12 or Customize..

Specifications:

- Self Insulated Grade (KCF).
- Shunting Proof.
- Isolation treatment on the surface.
- Fitted with high grade copper.
- Bold welding electrode.

WATER COOLING JACKET ASSLY

Applications:

- By cooling effect this give longer life of electrode and prevention from lowering conduction by Heat ascension.

Features:

- This matches with various kind of holders.
- Most suitable for narrow place is without thread.
- Prevent from spatter on product.
- Recommendable set for longer life of projection electrode.
- Available in various Models WCJ-20, WCJ-25, WCJ-30.

IT GUN SPARES

Features:

- Available all kind of IT Guns spares for any make (Like Techno Weldcon , Nash etc.)
- Best Quality as per OEM.
- Perfect Interchangeability.
- Preciously Manufactured for exact Fitment.
- Equalent life span as per OEM.

Our Few Products:

- Cylinder Rods
- Fly Nuts/Pin
- Insulating Hose
- Brass Adopter
- Water Distributor
- Insulator
- Shanks
- Flexible Shunt

SPARES OF STUD WELDING

Features:

- Available all kind of Mechanical spares for stud welding gun.
- Best quality as per OEM.
- Perfectly interchangeability.
- Preciously Manufactured for exact fitment.
- Scope of customize Development are also possible.

STUD COLLETS AUTO & MANUAL FEED

Specification:

- Available for Autofeed , Manual Feed as well Robot.
- Available in M-3,M-4,M-5,M-6,M-8 & M-10 Studs.
- Also Available for T-Stud.
- Length Stand from 39mm to as per customer requirement.
- Totally made of copper alloy for longer life.

Our Main Products:

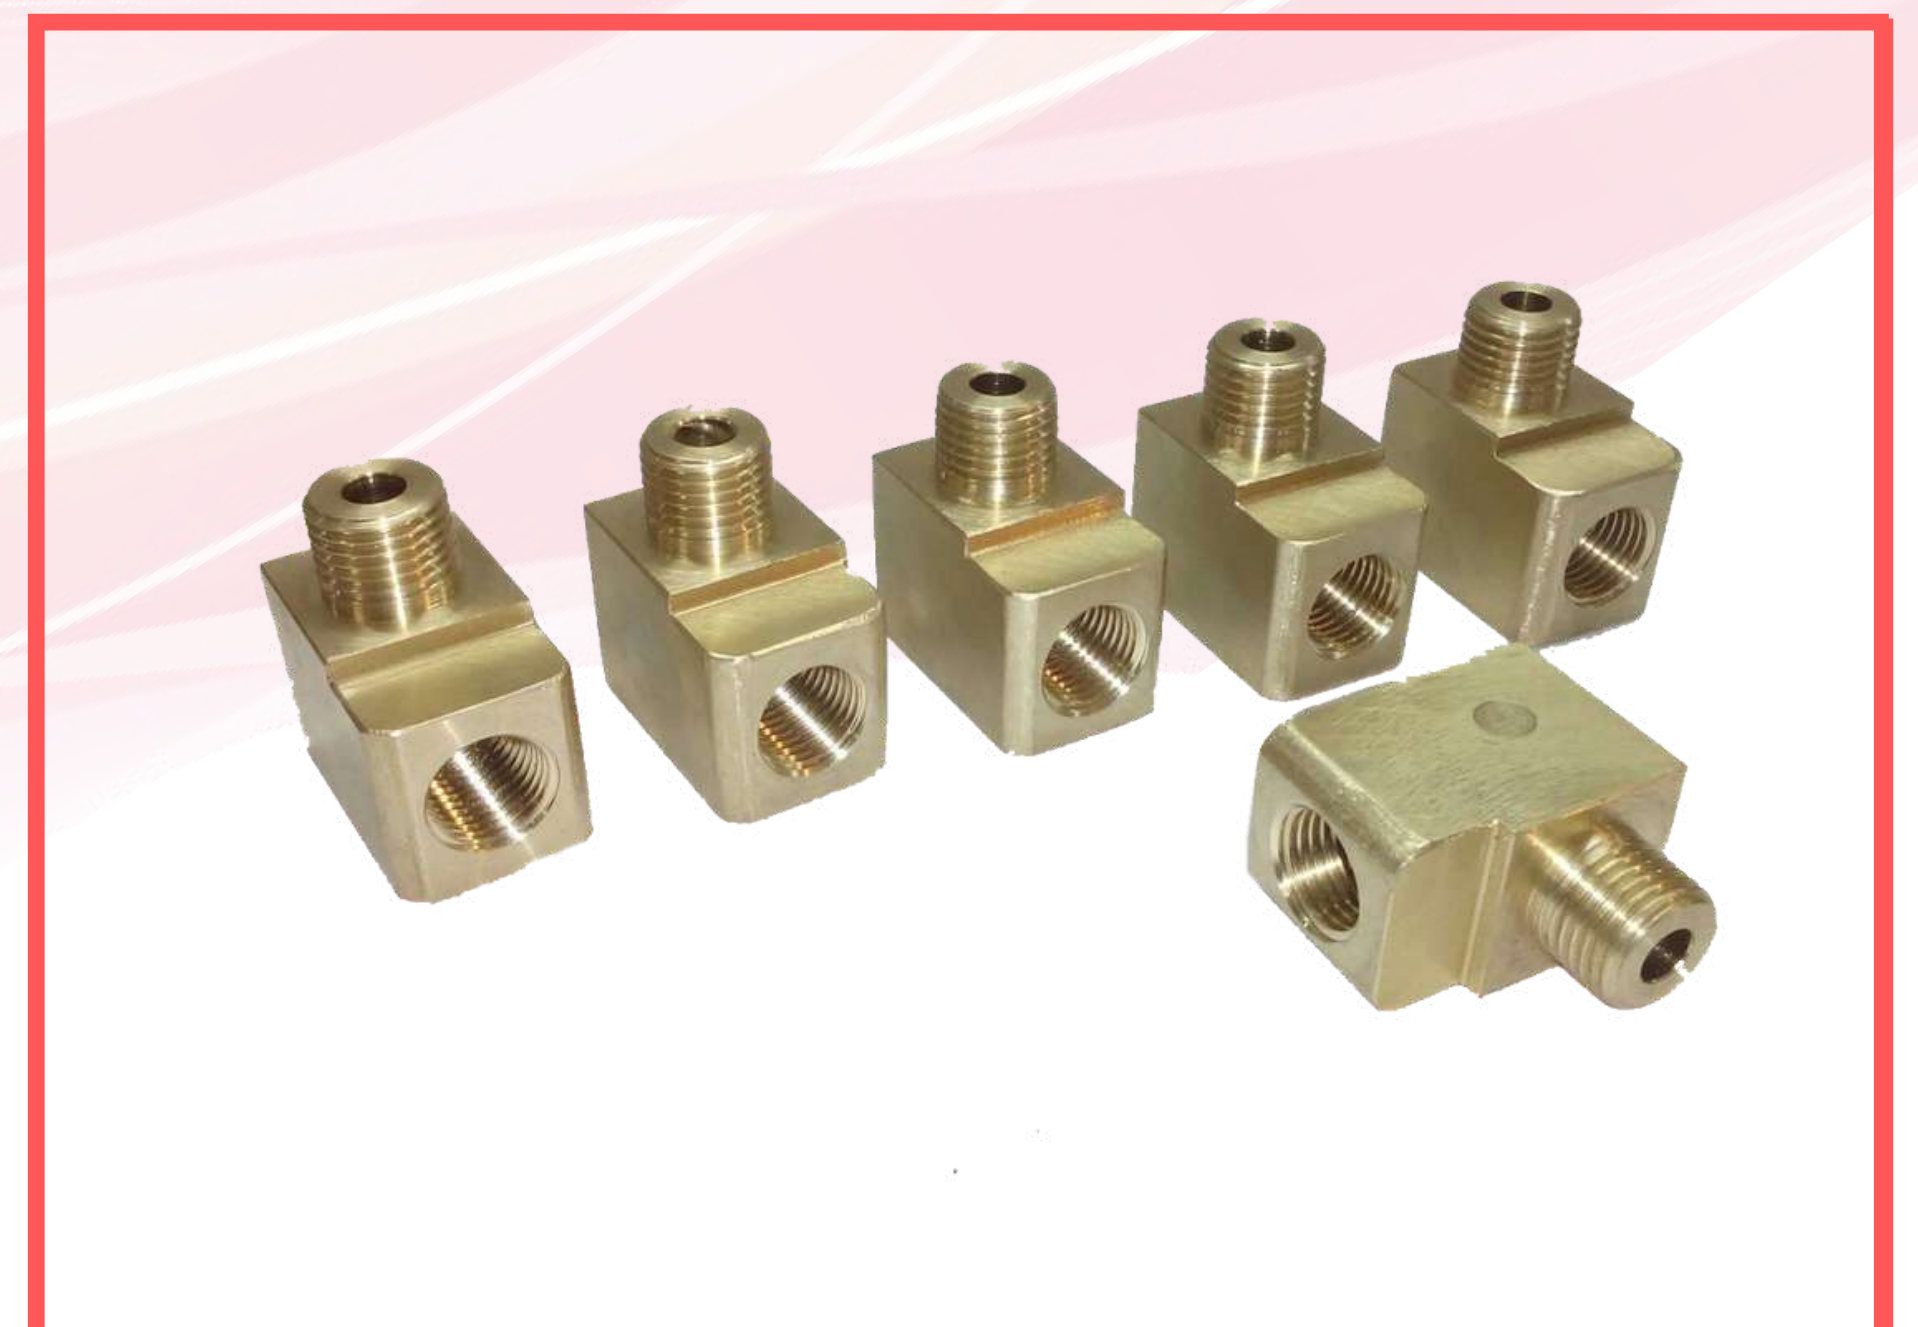

- Stud Collects
- Swivel Nut
- Feedpot
- Flash Shield
- Loading Pin
- Guide Piston
- Clamping Ring
- Connecting Flange
- Flash Shield Support

SEAM WELDING SPARES

Seam Welding Spare includes:

- Seam Welding Wheel.
- Seam Welding Drive Wheel.
- Dressing Cutter for Reshaping wheel.
- Seam Shaft.
- Silver Contact Shoe.
- Complete Brass Head.

Applications

- It is used in the assembly of Fuel tank in automotive industry.
- Especially used in case of seam welded tubing and pipes.
- It is used in Fabrication of gas or liquid tight metal sheets are needed.
- It is also used in fabrication of Heat Exchange.
- Earlier Seam Welding was used to produce steel beverages cans but not currently used

MIG WELDING ROBOT CONTACT TIPS

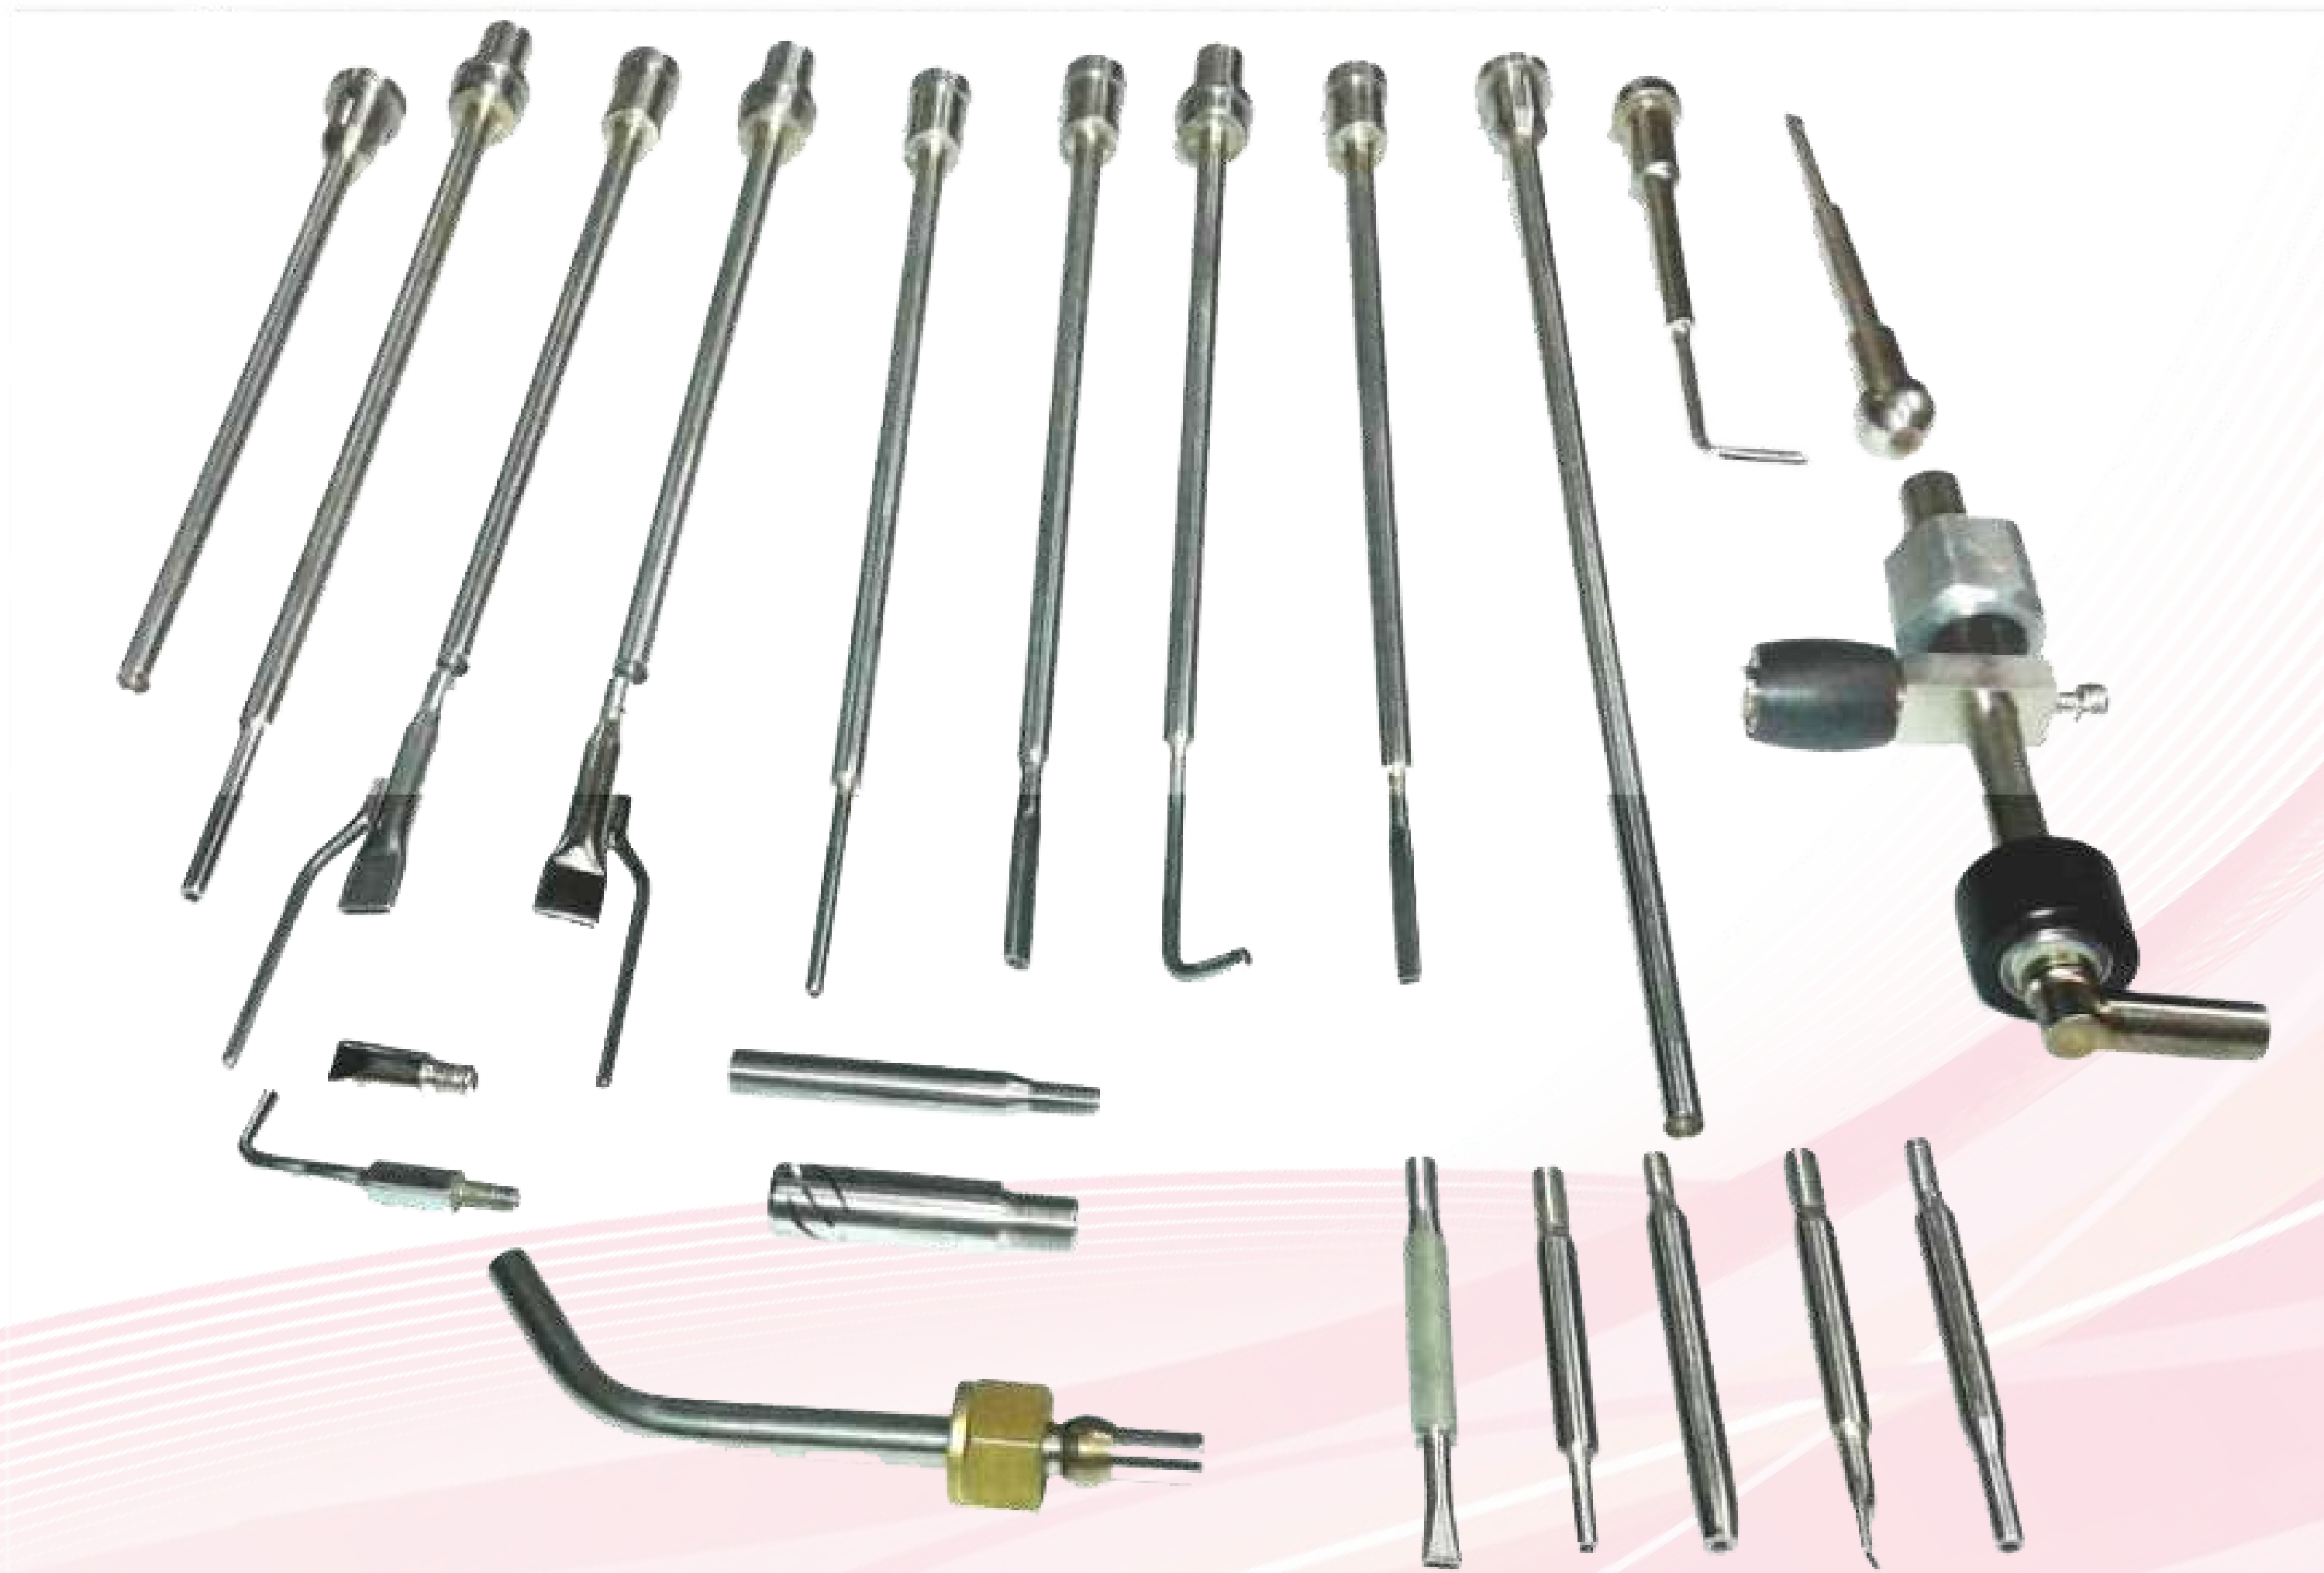

Standard Copper Welding Contact Tip (E-Cu)

- The E-Cu tip is usually the most affordable, so it's generally an acceptable trade-off to frequently replace it when precise wire targeting is not critical

Copper-Chrome-Zirconium Welding Contact Tip (CuCrZr)

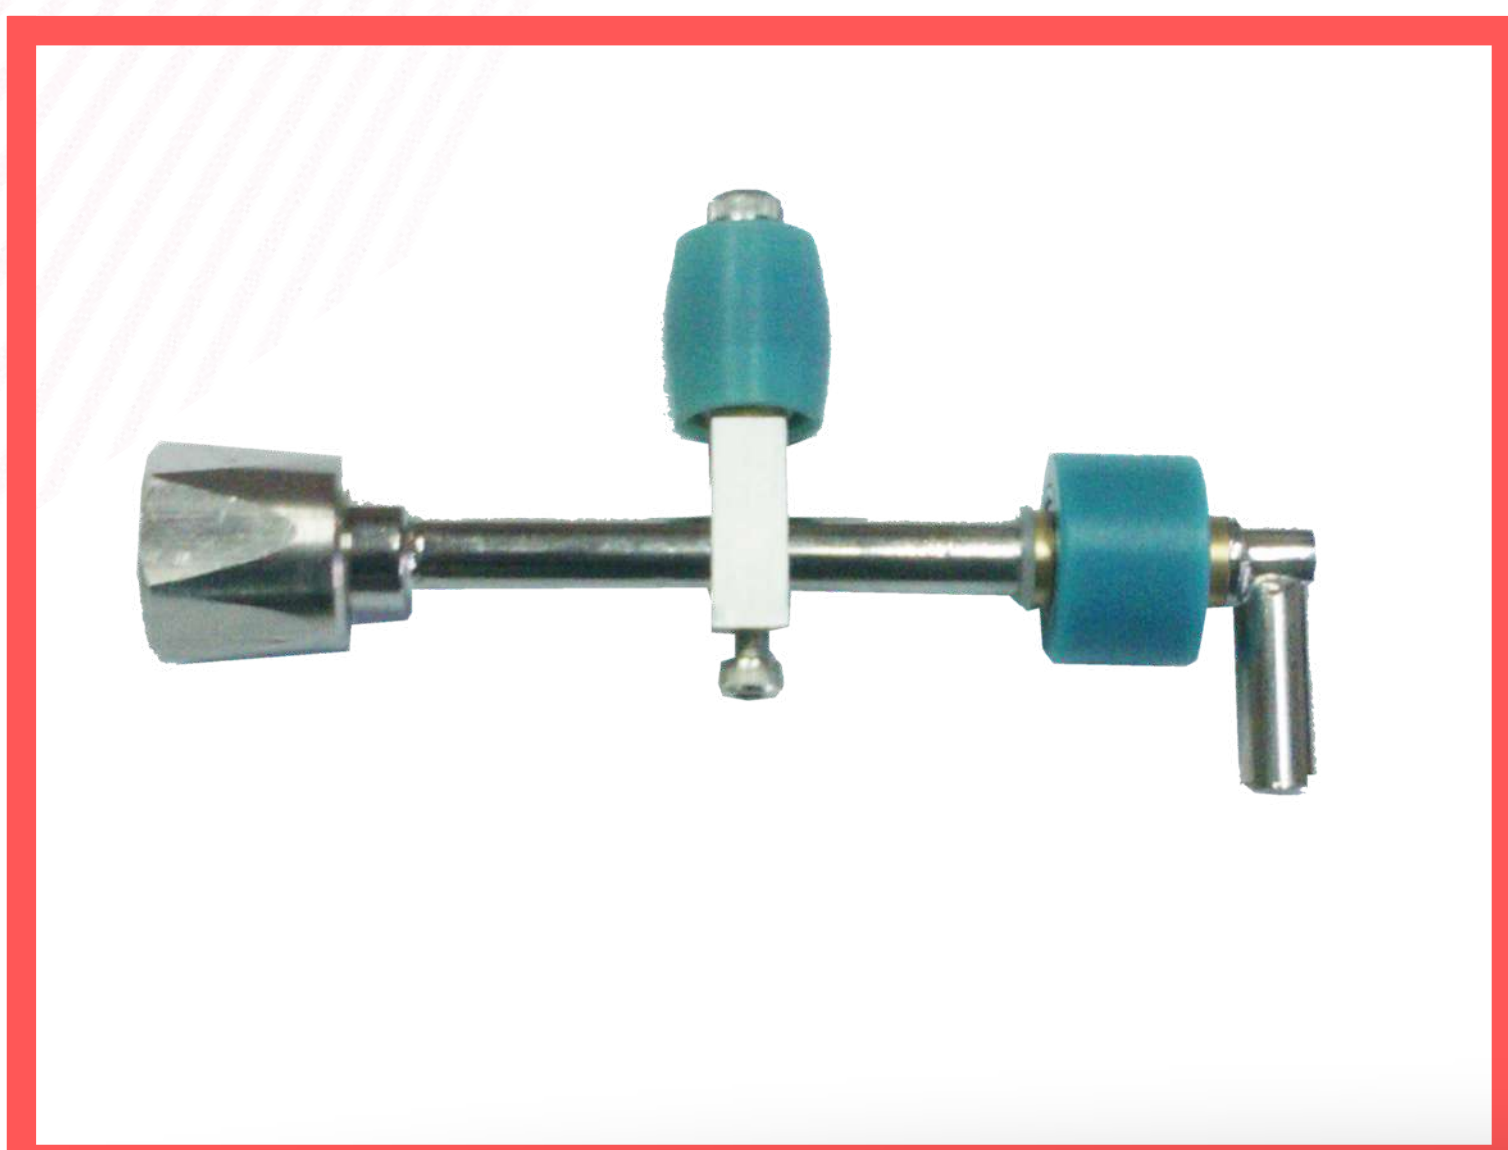

- A copper-chrome-zirconium welding contact tip generally is used in automated and robotic welding applications where precise TCP or Tool Center Point, is needed and high duty cycles occur. However, since CuCrZr alloy softens at a much higher temperature, it tends to have a longer life span than standard copper tips. Generally speaking, the tip maintains its shape up to approximately 932 degrees versus 500 degrees for E-Cu. Therefore, the higher-density material leads to a lower wear rate and increases the tip's performance and productivity.

SEALER NOZZLE

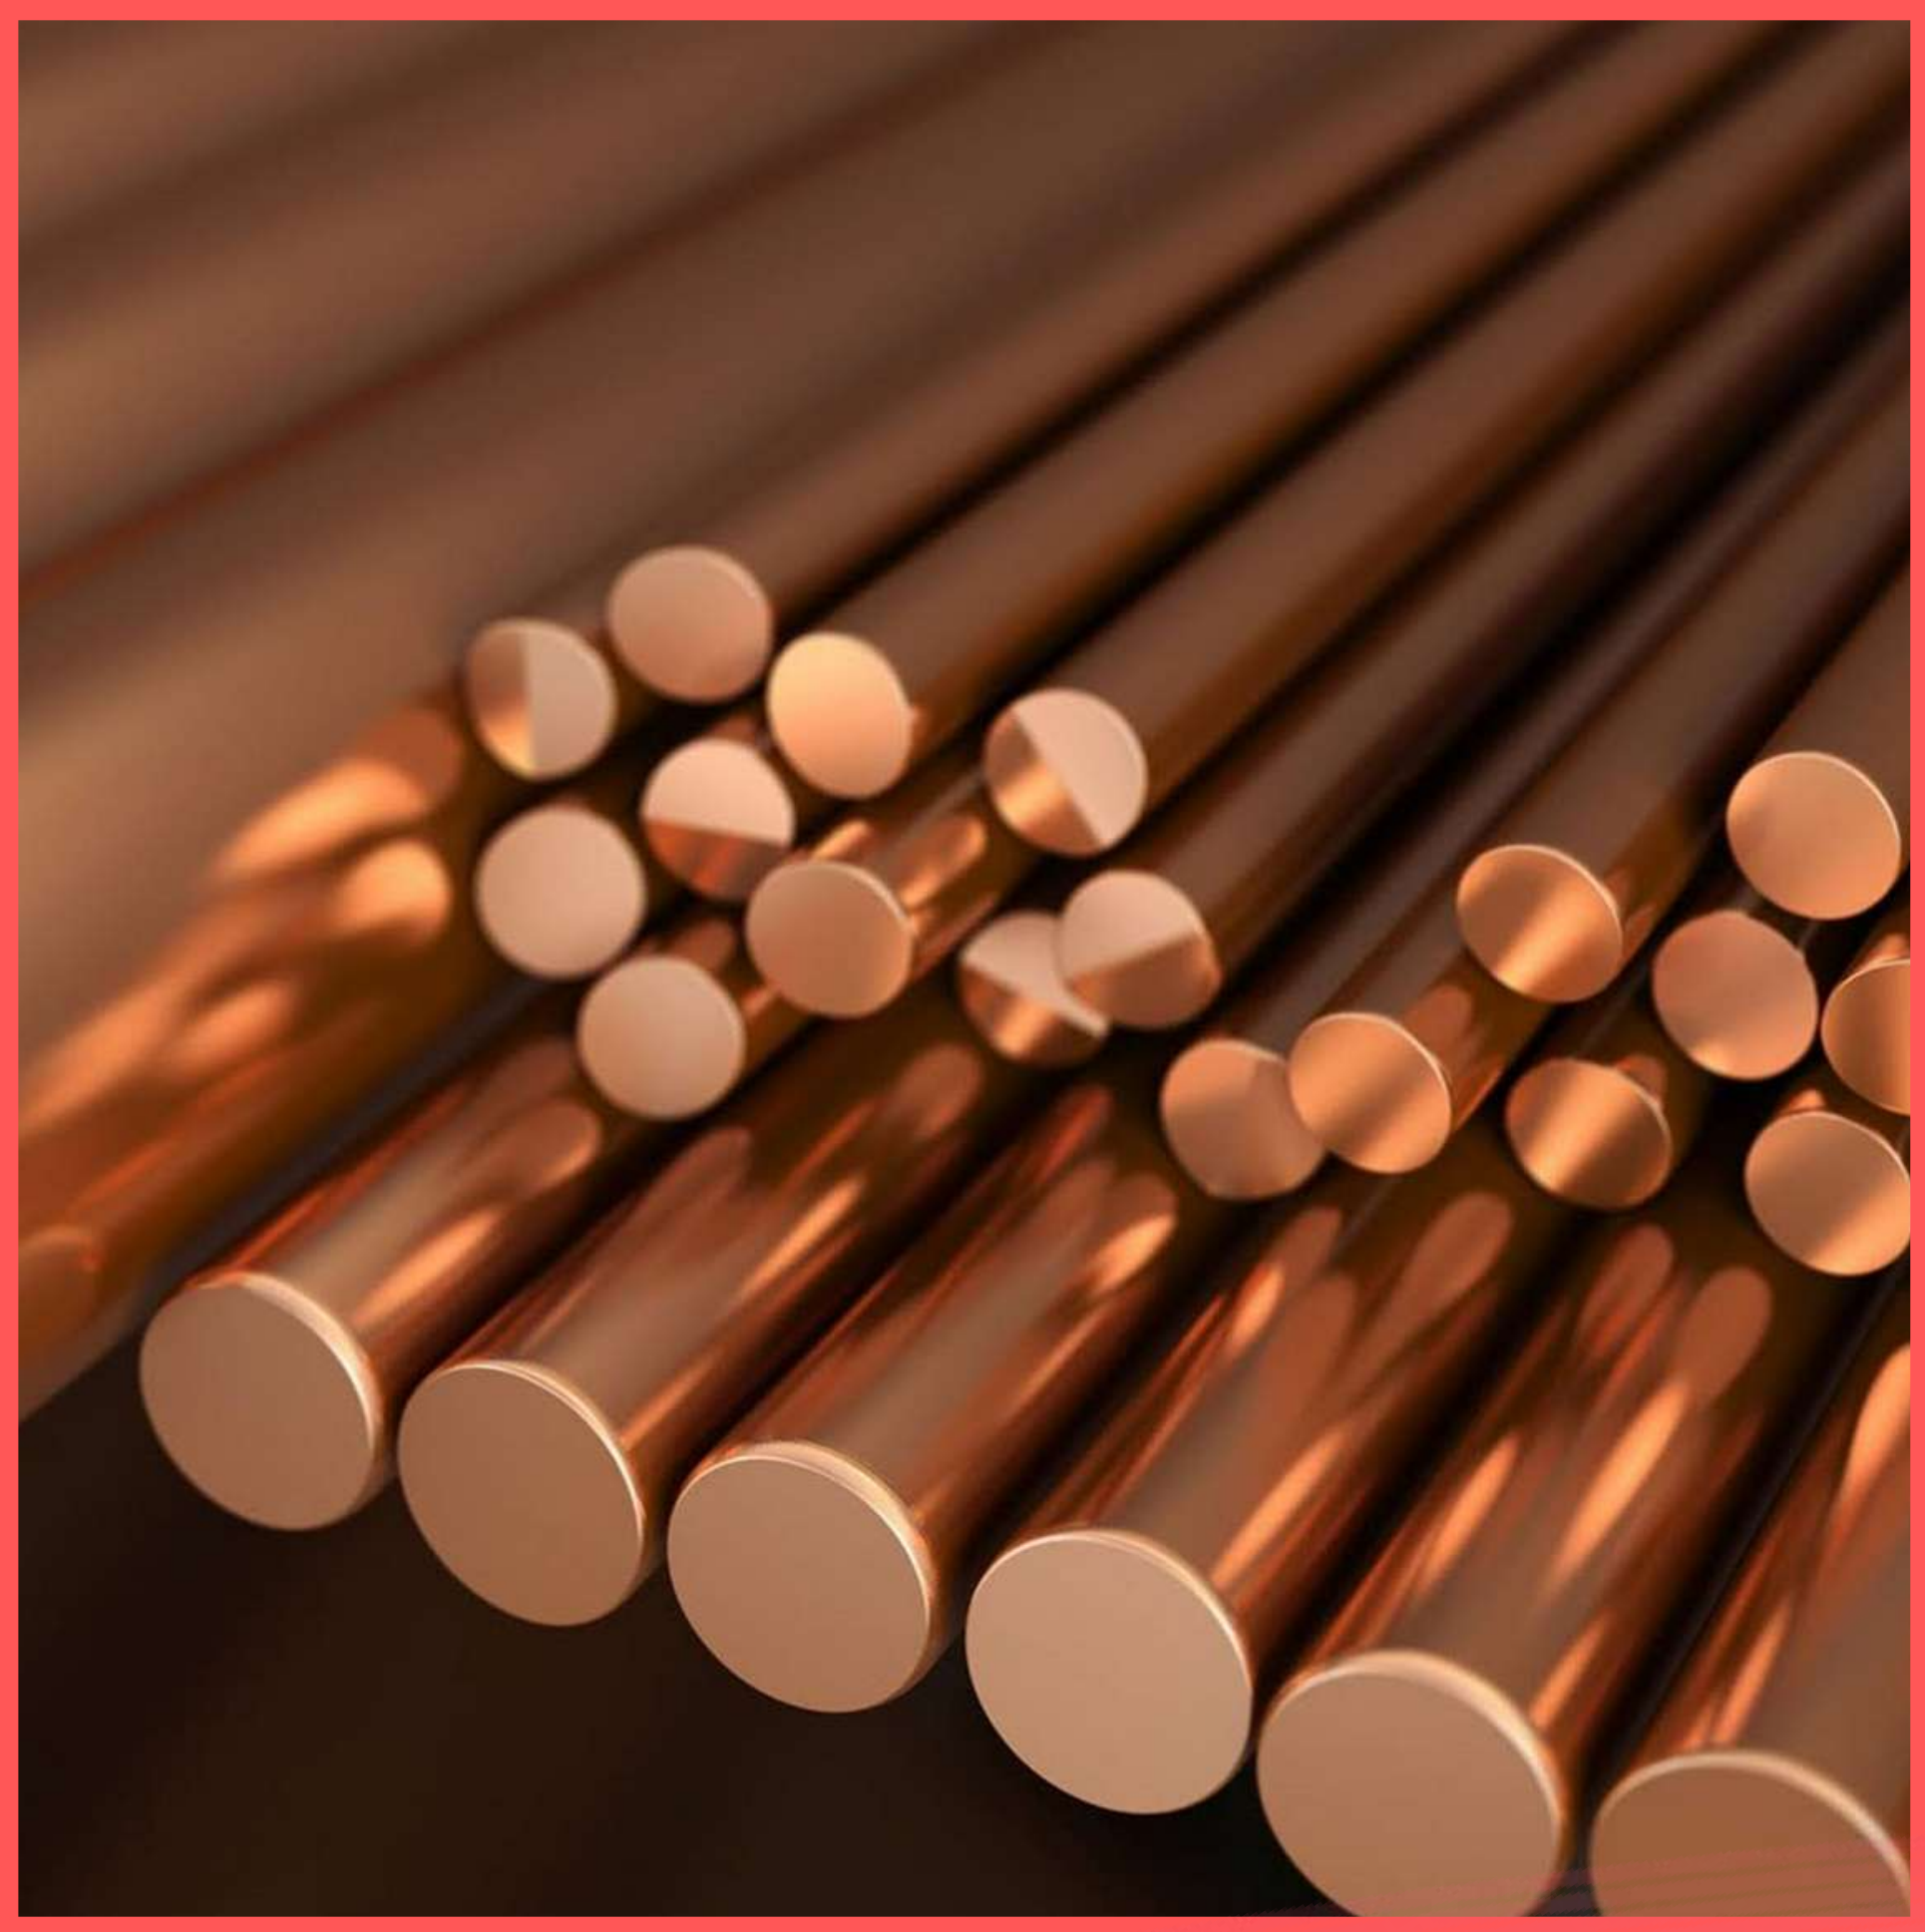

Features:

- Various Models.
- Sealer Round Nozzle.
- Sealer Hinge Nozzle Standard & Customize Type.
- Sealer Flat Nozzle.
- Wax Nozzle Under Body.
- Wax Nozzle for Door.
- Hood & trunk Hinge Nozzle H & RH.
- Door Hinge Nozzle LH & RH.
- Sealer Wheel Arc.

COPPER AND BRASS GRADES

C18150

Our Products:

- Chromium Zirconium Round Bars.
- Chromium Zirconium hex and flats.
- Beryllium C17500 Rounds and flats.
- Beryllium C17200 Rounds and flats.
- Copper ETP Grade.
- Brass Round Hex and Flats.

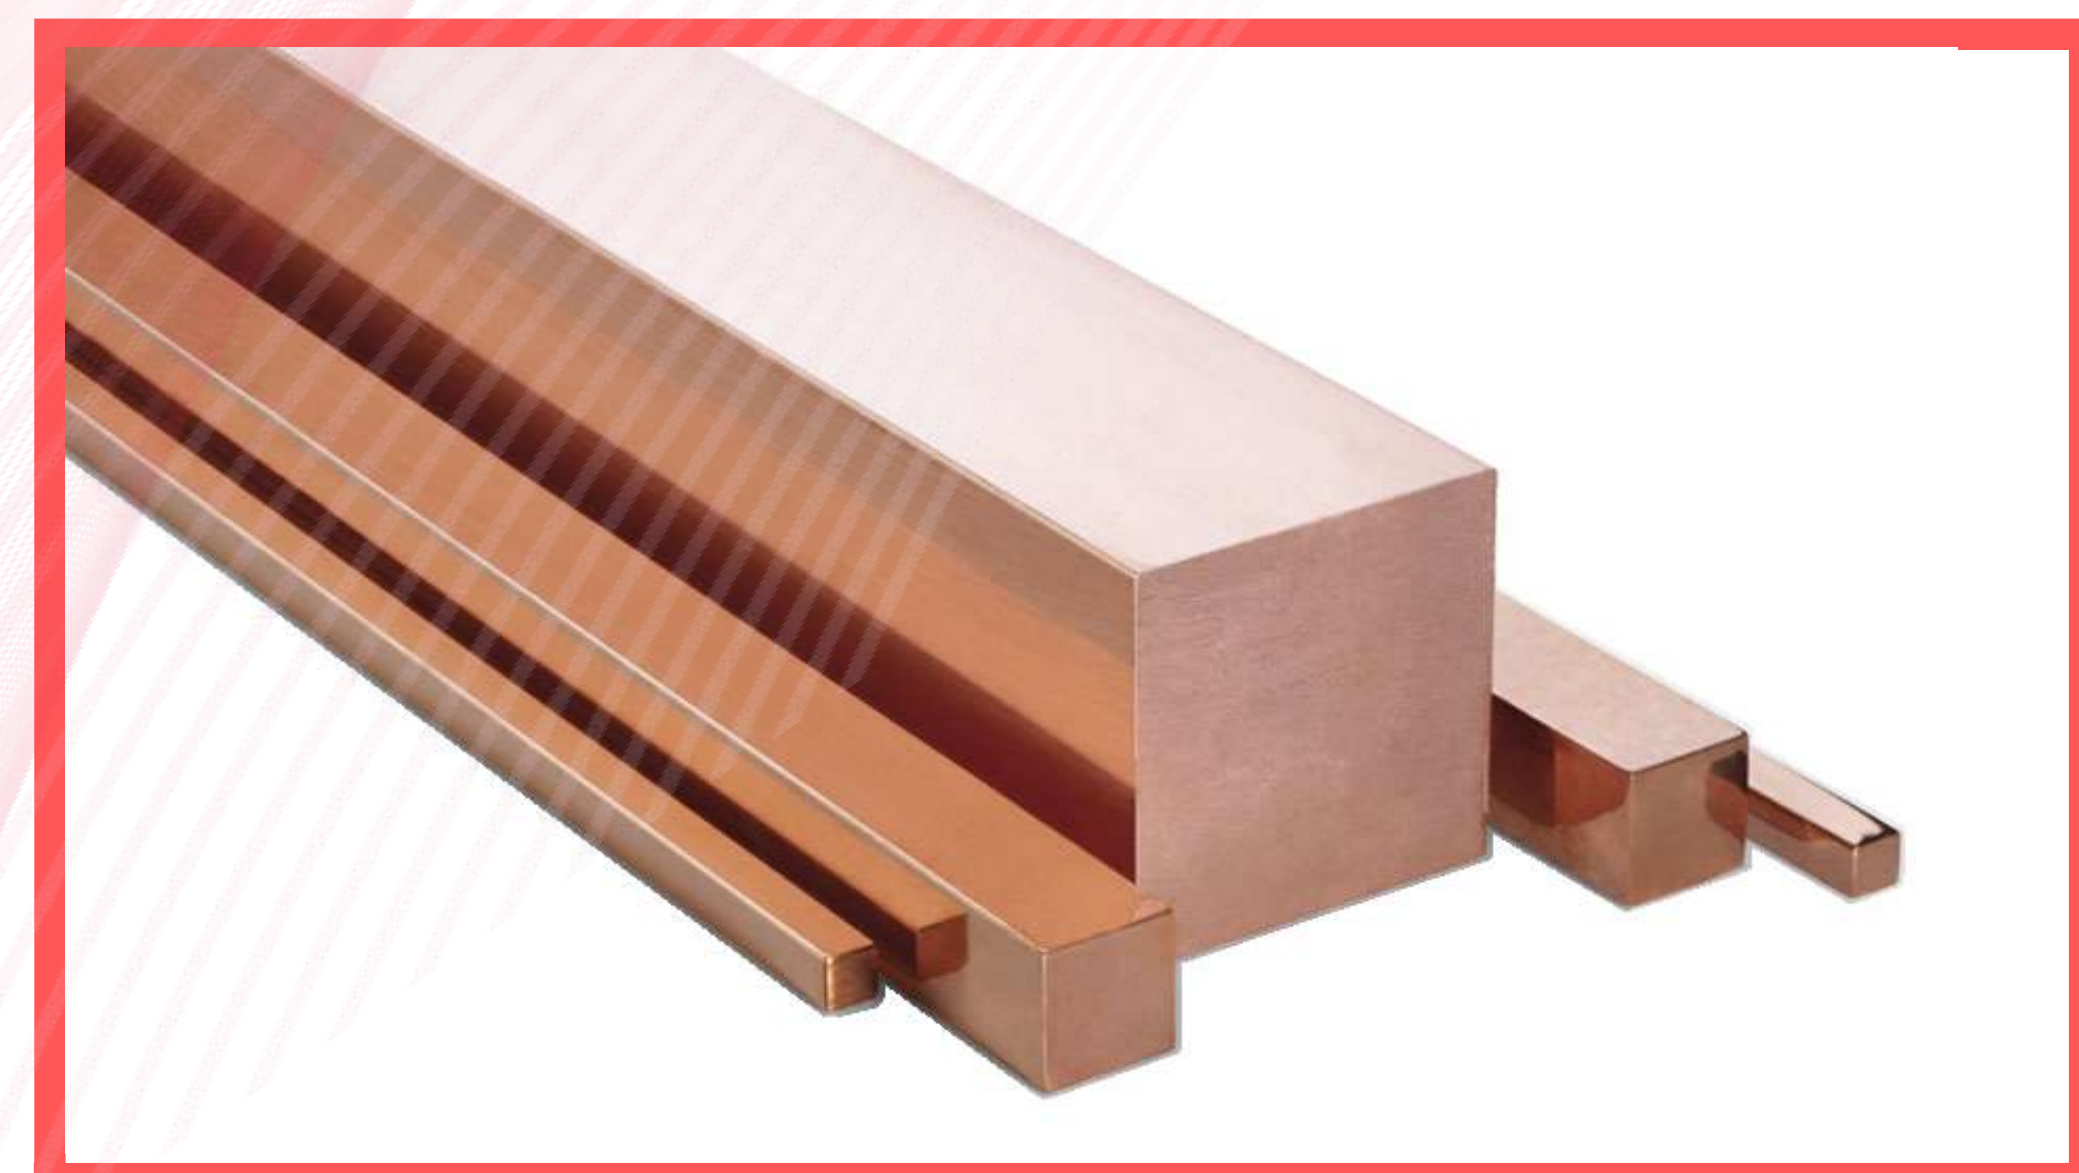

BRASS

C17200

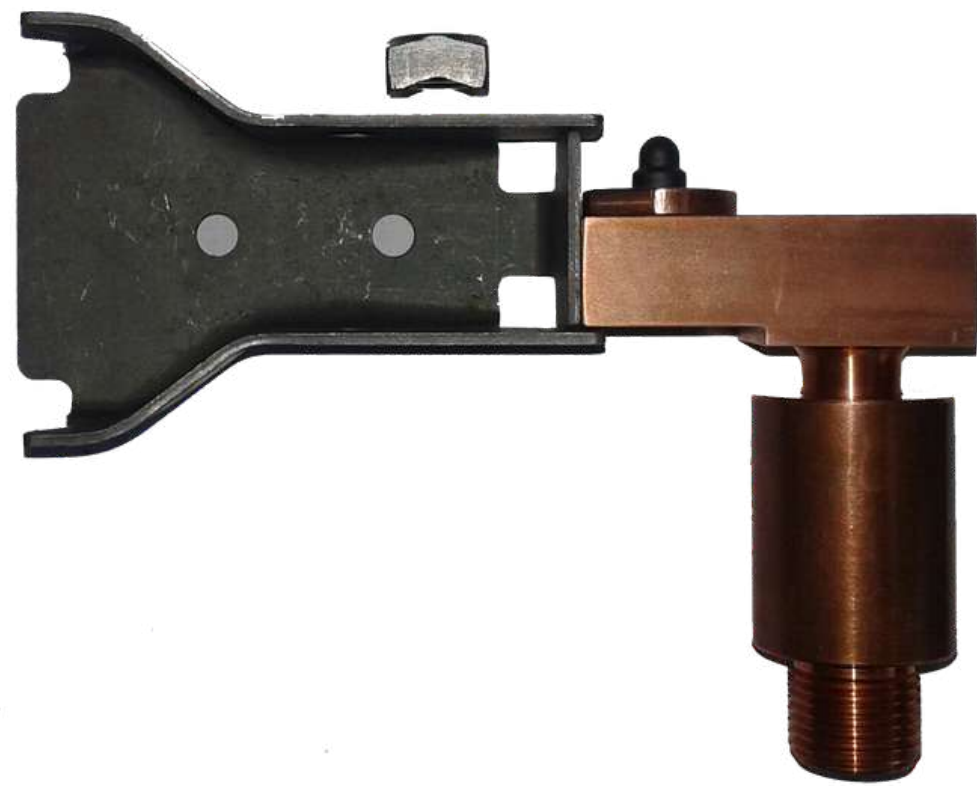

Copper:

1. C18150. Chromium Zirconium.
2. C17200. Beryllium.
3. C17500. Beryllium.
