

## Afghan Almond with Shell (Natural Badam)

Afghan Almond with Shell is a premium, natural nut known for its rich taste, high oil content, and crunchy texture. Grown in the fertile valleys of Afghanistan, these almonds are sun-dried and harvested traditionally, preserving their authentic flavor and nutritional value. Encased in a hard, protective shell, they maintain freshness for longer and offer a satisfying, wholesome snacking experience. Afghan almonds are packed with essential nutrients like protein, healthy fats, vitamin E, and magnesium, making them a great addition to a balanced diet. Their slightly sweet, earthy flavor sets them apart from other varieties. Perfect for snacking, gifting, or use in traditional recipes, these almonds represent purity and quality. Key Features: - Premium quality Afghan origin - Natural & chemical-free - High oil content & rich taste - Long shelf life (with shell) - Suitable for bulk supply & export
