

Soldering Station with Auto Feeder

Features & Specifications-601 DFL

- 1) Monitor Bit temperature intelligently with perfect temperature offset to ensure soldering quantity.
- 2) Optical Isolation with Zero Volt switching.
- 3) Feather touch system control with closed loop temperature monitoring.
- 4) Temperature setting resolution +/-10C

Features & Specifications-601 DFL with Auto Feeder

- 1) Solder wire dia.0.4 to 1.2mm
- 2) Make one hand soldering possible
- 3) Can choose hand switch and pedal switch at your will
- 4) Feeding time & speed are settable with the solder wire return mechanism.

Power Consumption	80W
Temperature Range	180-480°C
Input Voltage	230 VAC, 50Hz
Output	30 VAC, 3.0A
Weight	2.0 Kg

Power Supply	AC220V 50Hz
Power Consumption	10W
Motor	Step Motor
Feed Speed	14/~35mm/S
Volume	0~120mm
Interval Time	0~3.5S
Feed Methods	Auto/Manual
Dia.	0.4,0.5,0.6,0.8,1.0 & 1.2mm
Dimension	107 X 110 X 215mm
Weight	1.5kg
